**Smaller Faster Lighter Denser Cheaper** Robert Bryce,2014-05-13

Manhattan Institute fellow Robert Bryce's personal idiosyncratic style fuels an important argument. He celebrates innovation, technology, and freedom as the answers to environmental concerns, repeatedly illustrating potential solutions that many of those forecasting climate calamity don't mention while suggesting what humanity's future could and should be. In this urgent, if reductive treatise, he proves an eccentric contrarian. His sort of random capitalization (things aren't faster; they are. Faster can irritate) and rather than answer objections or counterarguments, Bryce tends to just elude them, but he consistently remains intriguing. While always neutral politically, [getAbstract](#) suggests Bryce's optimistic look ahead to all those interested in the environment, the future, and how innovation builds on itself.
