We All Lost The Cold War:

We All Lost the Cold War Richard Ned Lebow, Janice Gross Stein, 1995-07-23 In the 1980s Soviet evidence suggests the Reagan arms buildup delayed rather than hastened the accommodation Gorbachev desired for internal political reasons Both nations the authors argue expended lives and resources out of all reasonable proportion to their legitimate security interests with destabilizing consequences that persist today

We All Lost the Cold War Richard Ned Lebow, Janice Gross Stein, 1995-07-03 Drawing on recently declassified documents and extensive interviews with Soviet and American policy makers among them several important figures speaking for public record for the first time Ned Lebow and Janice Stein cast new light on the effect of nuclear threats in two of the tensest moments of the Cold War the Cuban Missile Crisis of 1962 and the confrontations arising out of the Arab Israeli war of 1973 They conclude that the strategy of deterrence prolonged rather than ended the conflict between the superpowers

The Constitution and the Conduct of American Foreign Policy David Gray Adler, Larry Nelson George, 1996 In this provocative and readable volume eleven leading constitutional authorities challenge business as usual in American foreign policymaking For far too long they contend Americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed Congress and neglectful scholars These authors forcefully argue that the president is not the supreme crafter of foreign policy and that Congress must provide more than a rubber stamp for the president's agenda Unilateral presidential control of foreign relations they warn can pose a grave threat to our nation's welfare and is simply without constitutional warrant Combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances An essential guide for all concerned citizens and members of Congress this volume should help revive a proper understanding of this crucial dimension of American democracy

We Now Know John Lewis Gaddis, 1997 A masterly review of the early phases of the conflict between the United States Russia China and their respective allies from 1946 to the Cuban missile crisis in the autumn of 1962 It is clear thorough and judicious in short magnificent The Economist Gaddis has done a thorough job of collating material from these diverse sources and constructing a trenchant analysis that puts these fascinating tidbits into context San Francisco Chronicle Examiner Based on the latest findings of Cold War historians and extensive research in American archives as well as the recently opened archives in Eastern Europe the former Soviet Union and China We Now Know provides a vividly written eye opening account of the Cold War during the years from the end of World War II to the Cuban missile crisis The book brims with new information drawn from previously unavailable sources with fresh insight into the impact of ideology economics and nuclear weapons and with striking reinterpretations of the roles of Truman Eisenhower Kennedy Khrushchev Mao and Stalin Indeed Gaddis concludes that if there was one factor that made the Cold War

unavoidable it was Stalin **Russia and Armed Persuasion** Stephen J. Cimbala, 2001 In *Russia and Armed Persuasion* Stephen J Cimbala argues that Russia's war planners and political leaders must make painful adjustments in their thinking about the relationship between military art and policy in the twenty first century Russia must master the use of force for persuasion not just destruction As the author shows military persuasion requires that Russian leaders master the politico military complexity of crisis management deterrence and arms control and the limitation of ends and means in war Russia now has scarce resources to devote to defense and can no longer afford the stick only diplomacy and strategy that have characterized some of its recent past Russian and Soviet military thinking historically emphasized the blunderbuss and total war overwhelming mass firepower and conflicts of annihilation or prolonged attrition However historical experience also forced Russia and the Soviet Union to come to grips with crisis management and with limited aims and means in the conduct of war On the one hand Russia failed the test of military persuasion in its management of the July 1914 crisis that plunged Europe into World War I On the other hand the Soviet Union did adjust to the requirements of the nuclear age for crisis management deterrence and limited war Using this mixed record of Russian and Soviet success and failure in twentieth century experience Cimbala argues that Russia can and must improve in the twenty first century According to the author the first decades of this century will pose at least three immediate challenges to Russia's military persuasion Russia must continue to pursue strategic nuclear arms control and arms reductions with the United States and avoid re starting the Cold War by means of an ill considered race in missile defenses Second Russia must maintain a surer grip on the military information revolution especially as it pertains to the management of Russia's nuclear deterrent Third Russia must develop forces that are more flexible **Nuclear Weapons After the Cold War** Michèle A. Flournoy, 1993 **Re-Viewing the Cold War** Patrick M. Morgan, Keith Nelson, 2000-02-28 A cooperative effort by a number of historians and political scientists this essay collection focuses on the important connection between domestic affairs and foreign relations during the Cold War The case studies treat phases of both the Soviet and American experiences and involve contributions by two Russian scholars three Americans a German a Swede and an Israeli This collection is particularly timely and significant because of the surprising way the Cold War ended making clear that domestic developments can overthrow even the most potent foreign policies and undermine longstanding assumptions about the primacy of international factors A provocative essay collection this will be of interest to diplomatic historians and Soviet Affairs specialists scholars and students Forbidden Fruit Richard Ned Lebow, 2010 Could World War I have been averted if Franz Ferdinand and his wife hadn't been murdered by Serbian nationalists in 1914 What if Ronald Reagan had been killed by Hinckley's bullet Would the Cold War have ended as it did In *Forbidden Fruit* Richard Ned Lebow develops protocols for conducting robust counterfactual thought experiments and uses them to probe the causes and contingency of transformative international developments like World War I and the end of the Cold War He uses experiments surveys and a short story to explore why policymakers historians and international

relations scholars are so resistant to the contingency and indeterminism inherent in open ended nonlinear systems Most controversially Lebow argues that the difference between counterfactual and so called factual arguments is misleading as both can be evidence rich and logically persuasive A must read for social scientists Forbidden Fruit also examines the binary between fact and fiction and the use of counterfactuals in fictional works like Philip Roth s *The Plot Against America* to understand complex causation and its implications for who we are and what we think makes the social world work **From Red Sea to Blue Nile** Rosita Forbes,1925 *The Encyclopedia of the Cold War* Spencer C. Tucker,2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of internationally known military historian Spencer Tucker ABC CLIO s *The Encyclopedia of the Cold War A Political Social and Military History* offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union *The Encyclopedia of the Cold War* provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time [The Turbulent 60s - 1960](#) Loreta M. Medina,Lory Medina,2003-12-10 A collection of primary source documents from the year 1960 highlighting the nation s struggle with segregation censorship civil rights and the burgeoning Cold War **Managing Crises** Uriel Rosenthal,Arjen Boin,Louise Kloos Comfort,2001 This textbook considers the phenomenon of crises from a new perspective one that bridges the conventional social science view with the ever changing nature of crises in modern society The textbook is divided into five sections The first section introduces the perspective taken in the textbook and offers an understanding of who crises means The second section discusses how crises develop and escalate One chapter in this section offers case studies of a number of Los Angeles riots that have taken place since the 1960 s including the riot sparked by the verdict of the Rodney King trial The third section provides discussions on the decision making leadership and coordination that occur when responding to any particular crisis Section four reviews the politicization of crisis as well as the traumas that accompany any crisis The fifth section details the unintended consequences of modernization and how this will shape crises of the future **Constructive Conflicts** Louis Kriesberg,2003 Highly regarded by instructors as the most comprehensive and insightful textbook on conflict resolution *Constructive Conflicts* has been significantly revised and updated in this second edition The new edition builds on the strengths of the first especially its organization around the different stages at which

conflicts emerge escalate and resolve Kriesberg's analysis utilizes diverse theoretical perspectives and data and is relevant for strategies that a variety of people can employ to foster constructive struggles In this second edition to his highly recommended leading text book in conflict and peace studies by peaceful means Professor Kriesberg has included very valuable material on South Africa and apartheid on the women's and Civil Rights movements in the USA and the justice and globalization movements And above all on international terrorism and the al Qaeda network In a dynamic world authors have to be equally dynamic Professor Kriesberg is one of those Johan Galtung professor of peace studies the University of Hawaii the University of Witten Herdecke the European Peace University and the University of Tromsø

The Strangest Dream Robbie Lieberman, 2000-05 Drawing on extensive archival material and oral history Robbie Lieberman illustrates how grassroots peace activism in the United States became associated with Communist subversion after World War II enabling proponents of the Cold War to virtually silence the opposition until the early 1960s The persecution of peace activists as subversives dates back to colonial time but the specific link between communism and peace developed out of the unique conditions of the Cold War Communist agitation for peace American notions of national security and freedom that rested on containing communism at all costs Not until peace organizations challenged external and internal anti Communist attacks were they able to achieve a new level of respectability As Cold War tensions ease it is important to assess the early years of the peace movement with regard to the issue of Communism that dominated American life in those years With this book Lieberman seeks to clarify attitudes about peace and the fate of the peace movement not previously addressed by a major work

Globalization and Society Raymond Breton, Jeffrey G. Reitz, 2003-12-30 Globalization has been defined as a process in which the population of the world is increasingly bonded into a single society Although none of the contributors to this collection denies the thrust toward convergence that is implicit in globalizing processes each contributor also concludes that globalization encourages differentiation Integration in the global system is not a passive process In different nations people analyze and interpret what is happening and respond by developing policies forming new institutions and changing existing ones They adopt broad

cultural models in order to function effectively in the larger system and they also draw upon their particular traditions values institutions and resources to define a place that will be to their advantage economically politically and socio culturally As the studies presented in this book show integration in the world system may benefit a given society or may harm it it may entail changes to a society s culture but does not obliterate a society s distinctive characteristics **Russia and Postmodern**
