bargain and budget oriented Does not require a lifestyle makeover

*A Fashion Retailer's Guide to Thriving in Turbulent Times* Ghalia Boustani,Daniela Leonini,2022-12-01 By raising questions and providing scenarios for success this book

embraces fashion brand development in current turbulent retail environments A brand must have an essence it needs to respect a philosophy abide by values and follow clear processes A brand's success and sustainability follow specific rules nonetheless for fashion brands But do fashion brand management rules apply in today's turbulent times Acknowledging and going beyond branding theory this book challenges knowledge and practices that have been guiding fashion retail brands for many years Co written by an academic researcher and a retail consultant with 30 years of experience this practical guide

offers not a process that fashion brands must follow but potential avenues for survival in today's retail market and facing today's customers. Professionals and students of fashion retailing and branding will appreciate the detailed case studies that illustrate revisited concepts and thought provoking suggestions on how to make decisions for an uncertain future [Buy Now](#)

Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy. Amazon is ubiquitous in our daily lives: we stream movies and television on Amazon Prime Video, converse with Alexa, receive messages on our smartphone about the progress of our latest orders. In [Buy Now](#) Emily West examines Amazon's consumer facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background, becoming a sort of infrastructure that can be taken for granted. Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy. West shows how Amazon has cultivated personalized, intimate relationships with consumers that normalize its outsized influence on our selves and our communities. She describes the brand's focus on speedy and seamless ecommerce delivery, represented in the materiality of the branded brown box, the positioning of its book retailing, media streaming and smart speakers as services rather than sales, and the brand's image control strategies. West considers why pushback against Amazon's ubiquity and market power has come mainly from among Amazon's workers rather than its customers or competitors, arguing that Amazon's brand logic fragments consumers as a political bloc. West's innovative account, the first to examine Amazon from a critical media studies perspective, offers a cautionary cultural study of bigness in today's economy.
