The Tokyo Trial And Beyond Reflections Of A Peacemonger:

The Tokyo Trial and Beyond Antonio Cassese, B. V. A. Roling, 1994-12-05 This book provides a unique insider's view of the International Military Tribunal at the end of the Second World War and reflects on the nature and limits of international law in peacekeeping

The Tokyo Trial and Beyond Bernard Victor Aloysius Röling, 1993-01 This book is an outstanding account of the International Military Tribunal that took place in Tokyo at the end of World War II. As in the Nuremberg Trial, the leaders of Japan were accused of crimes against peace and crimes against humanity as well as war crimes.

Interpreting the Tokyo War Crimes Trial Kayoko Takeda, 2010 In order to ensure its absolute authority, the Tokyo War Crimes Tribunal (1946-1948), the Japanese counterpart of the Nuremberg Trial, adopted a three-tier structure for its interpreting. Japanese nationals interpreted the proceedings, second-generation Japanese Americans monitored the interpreting, and Caucasian U.S. military officers arbitrated the disputes. The first extensive study on the subject in English, this book explores the historical and political contexts of the trial as well as the social and cultural backgrounds of the linguists through trial transcripts in English and Japanese archival documents and recordings and interviews with those who were involved in the interpreting. In addition to a detailed account of the interpreting, the book examines the reasons for the three-tier system, how the interpreting procedures were established over the course of the trial, and the unique difficulties faced by the Japanese American monitors. This original case study of the Tokyo War Crimes Tribunal illuminates how complex issues such as trust, power, control, and race affect interpreting at international tribunals in times of conflict. Published in English.

Beyond Victor's Justice? The Tokyo War Crimes Trial Revisited Yuki Tanaka, Timothy L.H. McCormack, Gerry Simpson, 2011-06-09 The aim of this new collection of essays is to engage in analysis beyond the familiar Victor's justice critiques. The editors have drawn on authors from across the world, including Australia, Japan, China, France, Korea, New Zealand, and the United Kingdom, with expertise in the fields of international humanitarian law, international criminal law, Japanese studies, modern Japanese history, and the use of nuclear, chemical, and biological weapons. The diverse backgrounds of the individual authors allow the editors to present essays which provide detailed and original analyses of the Tokyo Trial from legal, philosophical, and historical perspectives. Several of the essays in the collection are based on the authors' extensive archival research in Japan, Australia, the United States, and New Zealand, providing rich insights into Japanese societal attitudes towards the Trial, biological experimentation by the Japanese Army in China, as well as the trial of Korean prison guards and prosecutions for rape and sexual assault in the post-war period. Some of the essays deal with particular participants in the Trial, examining the role of individual judges and the selection of defendants, and the decision not to prosecute the Emperor. Other essays analyse the Trial from a legal perspective and address its impact on concepts such as command responsibility, conspiracy, and war crimes. The majority of the essays seek to identify and address some of the forgotten crimes in the Tokyo Trial. These include crimes committed in China and Korea, particularly the activities of the

infamous Unit 731 crimes committed against comfort women and crimes associated with the atomic bombings of Hiroshima and Nagasaki the conventional firebombing of other Japanese cities and the illicit drug trade in China Finally the collection includes a number of essays which consider the importance of studying the Tokyo Trial and its contemporary relevance These issues include an examination of the way in which academics have written the Trial over the last 60 years and an analysis of some of the lessons that can be drawn for international trials in the future

Corporations, Accountability and International Criminal Law Kyriakakis, Joanna, 2021-12-09 This timely book explores the prospect of prosecuting corporations or individuals within the business world for conduct amounting to international crime The major debates and ensuing challenges are examined arguing that corporate accountability under international criminal law is crucial in achieving the objectives of international criminal justice

The Tokyo War Crimes Trial Yuma Totani, 2005

Beyond the "judgment of Civilization" Kei Ushimura, 2003 Critique of Maruyama Masao's psychology of the militarist rulers I do not evade responsibility general Matsui Iwane and the Nanjing incident Regard for feelings between private individuals and Haragei the logic of foreign minister Togo Shigenori Western responsibility eastern responsibility Hermann Göring and Tojo Hideki Takeyama Michio and the Tokyo Trial Judge R. Ling and Japan on reading the Tokyo Trial and Beyond Echoing critiques of the Hull Note Judge Radhabinod Pal and Albert Nock Justice across the ocean attorney Ben Bruce Blakeney The foreign minister as critic Togo Shigenori and changing views of civilization Confronting the other the prison diary of lieutenant general Kawamura Sabur

Domestic and International Trials, 1700-2000 Maureen Mulholland, R. A. Melikan, 2003 Focusing both on English criminal military and parliamentary trials and upon national and international trials for war crimes this book illuminates the diverse forces that have shaped trials during the modern era

New York University Journal of International Law & Politics New York University. International Law Society, 1997

Perspectives on the Nuremberg Trial Guénaél Mettraux, 2008 The trial of major Nazi war criminals in Nuremberg was a landmark event in the development of modern international law and continues to be highly influential in our understanding of international criminal law and post conflict justice This volume offers a unique collection of the most important essays written on the Trial discussing the key legal political and philosophical questions raised by the Trial both at the time and in historical perspective The collection focuses on pieces from those involved in the Tribunal discussing the establishment of the Tribunal the Trial itself and the debate that followed the Judgment Also included are representative essays of the academic debate that has surrounded Nuremberg in the sixty years since the Trial Ranging from the contribution of Nuremberg to the substantive development of international criminal law to the philosophical evaluation of legalism in post conflict international relations the perspectives provided by the essays offer a unique overview of the persistent significance of Nuremberg across a range of academic disciplines The collection also features newly translated essays from key German Russian and French writers available in English for the first time a new essay by Guénaél Mettraux examining the Nuremberg legacy in contemporary international criminal justice and

an exhaustive bibliography of the literature on Nuremberg Documents on the Rape of Nanking Timothy Brook, 1999
 Newly revised resources for understanding the Rape of Nanking A History of Political Trials John Laughland, 2008 This is
 a formidable and well documented counterblast to a developing modern orthodoxy expressing a point of view that many
 readers will not even have suspected existed let alone read Anthony Daniels Spectator A useful and controversial
 contribution to the debate about victor's justice and a valuable warning that international war crimes tribunals need to
 operate with precision and care Jonathan Steele Guardian The rapid development of the use of international courts and
 tribunals to try heads of state for genocide and other crimes against humanity has been welcomed by most people because
 they think that the establishment of international tribunals and courts to try notorious dictators represents a triumph of law
 over impunity In A History of Political Trials John Laughland takes a very different and controversial view namely that
 political trials are inherently against the rule of law and almost always involve the abuse of process as well as being seriously
 hypocritical By means of detailed consideration of the trials of figures as disparate as Charles I Louis XVI Erich Honecker and
 Saddam Hussein Laughland shows that the guilt of the accused has always been assumed in advance that the judges are
 never impartial that the process is always unfair and biased in favor of the prosecution that the defense is not permitted to
 use all the arguments at its disposal and that often the accusers have done exactly what they accuse the defence of having
 done All the trials he recounts were marked by arbitrariness and injustice often gross injustice Although the chapters are
 short and easy to read they are the fruit of formidable erudition and wide reading The general reader will be forced by this
 book to re examine the ideas on this subject and will be much less sanguine about the possibility of bringing dictators and
 other leaders to genuine justice John Laughland lives in Bath and is an author journalist and has been a university lecturer in
 France He has published The Tainted Source The Undemocratic Origins of the European Idea Time Warner Paperbacks and
 has written for the Spectator the Economist and The New York Times Table of Contents Introduction The Trial of Charles I

 Jeremy Seymour Eades, 1999 The Tokyo region of Japan is in terms of population the largest urban area on earth Its centre
 comprises the 23 wards of Tokyo itself but the urban sprawl has long since extended to include the other major cities of

Kawasaki and Yokohama From the early 16th century when the Tokugawa rulers of Japan established their administrative headquarters there Edo as it was known developed quickly into one of the largest cities in the world It was renamed Tokyo or Eastern Capital when the Emperor moved there in 1868 In the 20th century most of Tokyo was destroyed first by the Kanto earthquake of 1923 and then by the American bombing of 1945 Nonetheless it was rapidly rebuilt and is now along with London and New York one of the major control centres of the global economy Yet behind the ultramodern facade of the main commercial areas Tokyo remains largely a city of narrow streets and small intimate neighbourhoods However the threat of serious earthquakes remains and the relocation of the capital is being increasingly discussed This is the first annotated critical survey of the English language literature on Tokyo and its region
