**Edinburgh Companion to Vegan Literary Studies** Emelia Quinn, Laura Wright, 2022-10-19 Vegan literary studies has been crystallised over the past few years as a dynamic new specialism with a transhistorical and transnational scope that both nuances and expands literary history and provides new tools and paradigms through which to approach literary analysis. Vegan studies has emerged alongside the animal turn in the humanities. However while veganism is often considered as a facet of animal studies broadly conceived it is also a distinct entity an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience. This collection of 25 essays maps and engages with that which might be termed the vegan turn in literary theoretical analysis via essays that explore literature from across a range of historical periods cultures and textual forms. It provides thematic explorations such as veganism and race and veganism and gender and covers a wide range of genres from the philosophical essay to speculative fiction and from poetry to the graphic novel to name a few. The volume also provides an extensive annotated bibliography.

summarising existing work within the emergent field of vegan studies      **Through a Vegan Studies Lens** Laura Wright,2019-02-20 Interest in the vegan studies field continues to grow as veganism has become increasingly visible via celebrity endorsements and universally acknowledged health benefits and veganism and vegan characters are increasingly present in works of art and literature Through a Vegan Studies Lens broadens the scope of vegan studies by engaging in the mainstream discourse found in a wide variety of contemporary works of literature popular cultural representations advertising and news media Veganism is a practice that allows for environmentally responsible consumer choices that are viewed particularly in the West as oppositional to an economy that is largely dependent upon big agriculture This groundbreaking collection exposes this disruption critiques it and offers a new roadmap for navigating and reimagining popular culture representations on veganism These essays engage a wide variety of political historical and cultural issues including contemporary political and social circumstances emergent veganism in Eastern Europe climate change and the Syrian refugee crisis among other topics Through a Vegan Studies Lens significantly furthers the conversation of what a vegan studies perspective can be and illustrates why it should be an integral part of cultural studies and critical theory Vegan studies is inclusive refusing to ignore the displacement abuse and mistreatment of nonhuman animals It also looks to ignite conversations about cultural oppression      *Deep into the Labyrinths in the Novels* by Louise Welsh Eduardo

García,2016-01-14 Deep into the Labyrinths in the Novels by Louise Welsh is the first book to focus on the novels of Louise Welsh one of the most acclaimed and interesting narrative voices in contemporary Scottish Literature It explores the use of the image of the labyrinth as one of the sites for horror in classic Gothic literature and its rewriting into a contemporary gothic labyrinth in 21st century Scotland and by extension in the European context that co exists with various other queer and intertextual labyrinths that complement and complicate it This book analyses how Louise Welsh s novels present different labyrinths that characters traverse and get lost in and by the same process with which readers also become engaged In both cases characters and readers discover that the labyrinthine understanding of reality becomes more real than any other official version of reality Each chapter of the book explores particular examples of these labyrinths even though they are not linear they tend to intermingle and intertwine      *Outing; Sport, Adventure, Travel, Fiction* ,1915      **Literary**
