The Two Cultures and the Scientific Revolution C P Snow, 2020-11-19 This is the publication of the influential 1959 Rede Lecture by British scientist and novelist C P Snow Its thesis was that the intellectual life of the whole of western society was split into the titular two cultures namely the sciences and the humanities and that this was a major hindrance to solving the world s problems Published in book form Snow s lecture was widely read and discussed on both sides of the Atlantic leading him to write a 1963 follow up *The Two Cultures And a Second Look An Expanded Version of The Two Cultures and the Scientific Revolution* **From Two Cultures to No Culture** Frank Furedi, 2009 In 1959 C P Snow delivered the annual Rede Lecture in Cambridge under the title of *The Two Cultures and the Scientific Revolution* Snow warned of a gap that had opened up between scientists and the literary intellectuals that made it almost impossible for the two groups to communicate Snow complained that literary intellectuals were not only ignorant of science but contemptuous of it as if scientific knowledge were unnecessary for a good education Snow believed that improvements in the teaching of science were required in order to address the world s greatest problems and that both the USA and the USSR were ahead of Britain in that respect Snow spoke with the authority of a man with a foot in both camps as a trained research scientist and a successful novelist and his lecture provoked worldwide coverage *The Two Cultures and the Scientific Revolution* Charles Percy Snow, 1959 The Two Cultures Charles Percy Snow, 1974 **The Two Cultures** Charles Percy Snow, 1981 *The Two Cultures* Charles Percy Snow, 1969 **The Two Cultures and the Scientific Revolution** C P (Charles Percy) 1905-1980 Snow, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
