

# Hammock Camping

## The Basics

No need to worry about uneven, rocky, wet, muddy, bug-infested ground again!

### Birds-eye View

Generally speaking, the hammock should be hung evenly between the trees and at the same relative height on uneven terrain.

Looped webbing can be threaded through each other to attach to a tree.

The tarp ridgeline should be tied below the hammock straps so the tarp will be close when the hammock sags while occupied.
