Early books emit an excellence unlike any from modern times. You will not be dissatisfied with this work, a timeless classic at its finest. Sneak Peak: It is a law of nature we overlook that intellectual versatility is the compensation for change, danger, and trouble. An animal perfectly in harmony with its environment is a perfect mechanism. Nature never appeals to intelligence until habit and instinct are useless. There is no intelligence where there is no change and no need of change. Only those animals partake of intelligence that have a huge variety of needs and dangers.
