The Tragedy Of Great Power Politics Updated Edition:

The Tragedy of Great Power Politics John J. Mearsheimer, 2001 A decade after the cold war ended policy makers and academics foresaw a new era of peace and prosperity an era in which democracy and open trade would herald the end of history 2 Minutes and Under, Volume 2 Glenn Alterman, 2002 *Intentions in Great Power Politics* Sebastian Rosato, 2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to resemble its dismal past *The New United Nations* John Allphin Moore, Jr. Jerry Pubantz, 2022-11-30 The third edition of this successful text highlights new international trends toward global governance nation building and human development while also assessing the extraordinary challenges confronting the United Nations at this critical moment in international affairs not least being the ubiquity of conflict in Africa the Middle East and Europe and the global threats of disease climate change and the retreat from multilateralism by the great powers A comprehensive guide to the world body s institutions procedures policies specialized agencies historic personalities initiatives and involvement in world affairs The New United Nations is organized thematically blending both topical and chronological explanations making reference to current scholarly terms and theories New to this edition Fully updated chapters and a new Introduction including discussion of the Paris Climate Change Agreement the world s response to COVID 19 and the revival of ultranationalism and great power rivalry New sections on the theory and practice of neoliberalism and populism the UN s use of the Responsibility to Protect in the Middle East the Arab Spring and multifaceted roles in the developing world especially in Africa Updated analysis of twenty first century challenges to collective security including in Syria and particularly in Ukraine Unique special section on the student Model United Nations experience Coverage of the UN s efforts to implement the Sustainable Development Goals eResources with supportive materials and documents *Slogan Politics* Jinghan Zeng, 2020-07-20 This book studies the three most important Chinese foreign policy concepts under Xi Jinping s leadership New Type of Great Power Relations Belt and Road Initiative and Community of Shared Future for Mankind Those signature concepts are often considered as China s well thought out strategic plans reflecting Beijing s concrete geopolitical vision This book however argues that these views are mistaken It develops a slogan politics approach to study Chinese foreign policy concepts The overarching argument is that those

concepts should be understood as multifunctional slogans for political communication on the domestic and international stages This book shows how those concepts function as political slogans to 1 declare intent 2 assert power and test domestic and international support 3 promote state propaganda and 4 call for intellectual support The slogan politics approach highlights the critical role of China's academic and local actors as well as international actors in shaping China's foreign policy ideas It provides critical insights to understand how Chinese domestic actors exert their influence and voice their narratives to influence China's policy agenda and debate It suggests that the existing analyses vastly exaggerate Beijing's capacity to coordinate domestic actors including forging coherent Chinese foreign policy narratives and unifying use of China's policy concepts
