## **The Terror Before Trafalgar Nelson Napoleon And The Secret War:**

**The Terror Before Trafalgar** Tom Pocock, 2002 Nelson's victory at Trafalgar on 21 October 1805 was a pivotal event in European history. But Trafalgar was not simply an isolated battle fought and won in an afternoon; the naval campaign had in fact begun more than four years before.

**The Coalitions Against Napoleon** William Nester, 2023-06-30 Britain alone could not hope to defeat the might of Napoleonic France, which through enforced conscription had become a nation in arms. But British leaders had a long history of forging alliances to counter their rivals, and when revolution ravaged France in 1793 and a levée en masse raised a huge patriotic army, it was through a coalition of monarchies that French ambitions were restrained; a coalition made possible by British gold and British industry. When Napoleon seized the reins of power in France, he too introduced conscription, and once again it was a succession of British-led and funded coalitions which eventually brought Napoleon to his knees. During the years 1793 to 1815, the British Government formed and underwrote seven coalitions that cost Britain 1 657 854 518 as the national debt tripled from 290 000 000 to 860 000 000. Of that, British subsidies to around thirty allies amounted to 65 830 228, along with staggering amounts of war supplies mass-produced by British factories and shipped to allies. Britain's leading role in Europe did not end with Waterloo. Immediately following the Sixth Coalition, and amidst the Seventh Coalition, Britain constructed with the other great powers a security system of cooperation and consultation called the Concert of Europe, that prevented a serious war among them for two generations. Britain's power to underwrite those coalitions came from a related series of revolutions: agrarian, mercantile, financial, technological, manufacturing, cultural, and political, that developed over the preceding century. For many reasons, that happened in Britain and not elsewhere. Of them, cultural values may be the most crucial. Constraints were fewer and incentives greater for enterprising Britons to invest, invent, buy, and sell in ways that enriched themselves and their nation more than elsewhere. During the eighteenth century, Britain's leaders mastered a virtuous power cycle of victorious wars, expanding production, capturing territories and markets, and more income. During a speech before Congress in December 1940, President Franklin D. Roosevelt called on Americans to be an arsenal of democracy to aid Britain and other countries threatened by the imperialistic fascist powers. Britain played exactly the same role during the Napoleonic era.

**The Coalitions Against Napoleon** explores how Britain developed and asserted the financial, manufacturing, and military power to achieve that goal.
