## **The Titans Of Takeover The Titans Of Takeover:**

The Titans of Takeover Robert Slater, 1999 The story told in *The Titans of Takeover* is that of the corporate raiders the men who in the 1980s discovered great financial opportunities in seizing control of someone else's business often at bargain prices With millions of dollars at stake these raiders aroused massive public attention and depending on point of view were for a while either the villains or the saviors of American business The book looks not only at the raiders but also at other featured players in the takeover game the investment bankers attorneys and arbitragers Profiled in these pages are the leading figures in the American takeover field including T Boone Pickens Carl Icahn Saul Steinberg and Ted Turner as well as such behind the scenes personalities as lawyers Martin Lipton and Joseph Flom investment bankers Joseph Perella and Bruce Wasserstein and arbitrager Ivan Boesky Book jacket

The Public Company Transformed Brian Cheffins, 2018-09-28 For decades the public company has played a dominant role in the American economy Since the middle of the 20th century the nature of the public company has changed considerably The transformation has been a fascinating one marked by scandals political controversy wide swings in investor and public sentiment mismanagement entrepreneurial verve noisy corporate raiders and various other larger than life personalities Nevertheless amidst a voluminous literature on corporations a systematic historical analysis of the changes that have occurred is lacking *The Public Company Transformed* correspondingly analyzes how the public company has been recast from the mid 20th century through to the present day with particular emphasis on senior corporate executives and the constraints affecting the choices available to them The chronological point of departure is the managerial capitalism era which prevailed in large American corporations following World War II The book explores managerial capitalism's rise its 1950s and 1960s heyday and its fall in the 1970s and 1980s It describes the American public companies and executives that enjoyed prosperity during the 1990s and the reversal of fortunes in the 2000s precipitated by corporate scandals and the financial crisis of 2008 The book also considers the regulation of public companies in detail and discusses developments in shareholder activism company boards chief executives and concerns about oligopoly The volume concludes by offering conjectures on the future of the public corporation and suggests that predictions of the demise of the public company have been exaggerated

**Company Men** Sean Deleahanty, 2025-10-20 How an esoteric economic theory and its most devout believers changed the world forever In the modern economy stock price is king The value of a corporation is measured in how it enriches its shareholders even when doing so subtracts from long term growth or social good Greed in the last half century of corporate practice has become very good *Company Men* is a sweeping intellectual history of how shareholder value rose from the lesser known edges of academic theory to the vanguard of corporate practice Historian Sean Deleahanty marshals archival resources to reveal how a group of motivated consultants activist investors and academic economists successfully branded shareholder value as the

antidote to problems of management and economic stagnation in the 1970s In their success they created a class of well heeled managers who executed shareholder value theory as an everyday practice and at the expense of most everything else Delehanty s history of the modern American corporation is a sobering account of the business regime that would rule the world and produce no shortage of regrets even amongst those who championed it Company Men is intellectual history at its most vital offering a surprising origin story of our economy s discontents **Acquisitions Et Offres Publiques D'achat** McGill University. Faculty of Law,1988 West Coast Review of Books ,1986 *Mergers, Acquisitions, and Other Restructuring Activities* Donald DePamphilis,2009-08-26 Explaining the real world of mergers acquisitions and restructuring based on his own academic knowledge and experience Donald DePamphilis shows how deals are done rather than just explaining the theory behind them This-is CBS Robert Slater,1988 Progressive Corporate Law Lawrence E Mitchell,2019-06-26 Reflecting recent re examinations of the nature and purpose of the modern publicly held corporation Progressive Corporate Law introduces the reader to alternative perspectives within the field The contributors to this volume are loosely bound both by their rejection of the prevailing paradigm of the corporation as a public good designed exclusively for the maximization of private profit and by their affirmative goal of designing corporate laws that accord better with the corporation s political and social realities The resulting series of visions emphasizes communitarian themes of efficiency and morality of responsibility altruism and unity within the corporate form as well as between the corporation and the broader society Progressive Corporate Law is important reading for business executives lawyers policymakers and others who are concerned with the role of corporations in modern life Designed to act as a springboard for stimulating discussion it will be a valuable supplement to courses and seminars in corporate law and business ethics **Mergers and Acquisitions Basics** Donald DePamphilis,2010-10-29 Negotiations form the heart of mergers and acquisitions efforts for their conclusions contain both anticipated and unforeseen implications Don DePamphilis presents a summary of negotiating and deal structuring that captures its dynamic process showing readers how brokers bankers accountants attorneys tax experts managers investors and others must work together and what happens when they don t Written for those who seek a broadly based view of M A and understand their own roles in the process this book treads a middle ground between highly technical and dumbed down descriptions of complex events It mixes theory with case studies so the text is current and useful Unique and practical this book can add hard won insights to anybody s list of M A titles Presents negotiation as a team effort Includes all participants from investment bankers to accountants and business managers Emphasizes the interactive natures of decisions about assets payments and appropriate legal structures Written for those who seek summarizing non technical information Judgment Proof Jim V.
