The Things They Carried Read Online:

The Things They Carried Tim O'Brien, 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene. *The Things They Carried* is a groundbreaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat, Kiley, Mitchell, Sanders, Norman, Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere from high school classrooms to graduate seminars in creative writing, it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear, and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award. Most of all, they carry

the dream of escape not yet knowing that the burden of memory will haunt them long after the war is over Taught in classrooms all over the world *The Things They Carried* is a groundbreaking work of art that reveals the true nature of war and celebrates the healing power of storytelling The summary and analysis in this ebook are intended to complement your reading experience and bring you closer to a great work of fiction [Truth and Fiction in Tim O'Brien's "The things they carried"](#) Larissa Pöltl,2016-09-05 Seminar paper from the year 2011 in the subject American Studies Literature grade 2 7 University of Mannheim Anglistisches Seminar course In Times of Crisis Representations of War in American Literature and Film from the Civil War to Iraq language English abstract In the book *The things they carried* by Tim O'Brien the narrator says that a good war story is never true He admits that nearly everything in the book is made up after saying that it is true before However the reader learns that not until the 7th chapter in which O'Brien the narrator tells the reader that everything up to now has been invented Similarly he leaves open if some things are true or not Even the narrator who is named like the author himself is made up and has no or little similarity to the author e.g. the author O'Brien does not have a daughter whereas the narrator O'Brien does Reading *The things they carried* a question keeps coming up again and again Why does he do that Why does Tim O'Brien the narrator constantly tell the reader that everything is made up It does not make any sense The reader just gets confused In addition to this question I found myself wondering if there was a clear difference between truth and fiction in the book namely if you could say this is true and this is untrue and this is certain and this is uncertain And if yes was it O'Brien's intention to draw this clear line or did it just happen by accident Of course one cannot know everything for certain and no one can look into O'Brien's brain but you can make assumptions based on the knowledge you have In my paper I will focus mainly on the aspect why the principle of truth and fiction is used in *The things they carried* and which effects come out of that I think this is very interesting because in my opinion this is the main aspect of the whole book Someone who reads it will not be able to stop themselves from asking questions in their head The main process while reading is that you just keep asking yourself these questions again and again and you cannot find any answer to them My goal however is not to find any answers but to try to explain this aspect truth and fiction as a whole and to examine what it might contribute to describe the Vietnam war [Conversations with Tim O'Brien](#) Patrick A.
