**The Twentieth Century in Eretz Israel** Mordechay Naor, 1998      Arab-Zionist Perspectives on the Early Struggle for Justice in Palestine Labeeb Ahmed Bsoul, 2025-06-20 This book offers an in depth exploration of the early history of Palestine providing a rigorous analysis of pivotal events and underlying dynamics The study begins with examining the emergence of Zionist movements and their proposals the period of Ottoman governance in the Levant and the influence of Western imperialism concluding with the critical era surrounding the Second World War specifically from 1939 to 1948 The following four chapters adopt a chronological and analytical approach to address topics of lasting significance These chapters critically examine the development of ideological currents originating from early Zionist initiatives the progression of Jewish settlement projects in Palestine from 1891 to 1917 and their contemporary relevance Furthermore they investigate the international political responses to the Palestine issue during the First and Second World Wars with particular emphasis on the interactions between the Zionist movement and Western imperialism In the final section the book scrutinizes the foundational principles of the Zionist movement and the challenges encountered by the Arab population during the interwar period offering valuable insights into the complex socio political realities of the time      Remembering the Holocaust in a Racial State Roni Mikel-Arieli, 2022-07-18 The lens of apartheid era Jewish commemorations of the Holocaust in South Africa reveals the fascinating transformation of a diasporic community Through the prism of Holocaust memory this book examines South African Jewry and its ambivalent position as a minority within the privileged white minority Grounded in research in over a dozen archives the book provides a rich empirical account of the centrality of Holocaust memorialization to the community's ongoing struggle against global and local antisemitism Most of the chapters focus on white perceptions of the Holocaust and reveals the tensions between the white communities in the country regarding the place of collective memories of suffering in the public arena However the book also moves beyond an insular focus on the South African Jewish community and in very different modality investigates prominent figures in the anti apartheid struggle and the role of Holocaust memory in their fascinating journeys towards freedom      *The Book of Telling*, 2008-01-01 Sharona Ben Tov Muir discovered after the death of her father inventor and New Age guru Itzhak Bentov that he had created Israel's first rocket A secret group of scientists working in a rooftop shed the Science Corps of which he was a part invented weapons during Israel's war of independence and later developed Israel's nuclear resources and other major scientific projects Bentov however settled in Boston and made his fortune with such medical inventions as a cardiac catheter which he created in his home laboratory where Muir played as a child Haunted by the question of why her father had never discussed his past Muir traveled to Israel to find the Corps Through her own memories and the memories they share Muir comes to know the brilliant impassioned and creative young Bentov as he demonstrates his latest invention for her takes her canoeing and reveals his thoughts about consciousness and the cosmos Muir elegantly evokes the hubbub of Jerusalem streets the wartime adventures of her hosts

and the inner lives of Israelis The resulting story of invention and self invention of the Corps s wartime experience as told for the first time and of a deep abiding love between father and daughter is an incandescent memoir The author provides a new preface for this new Bison Books edition      *Israeli Nationalism* Uri Ram,2010-12-16 This study of the construction of Jewish Israeli nationalism combines a sociological study of a national culture with an analysis of the national discourse exploring the categories of thought that constitute the Jewish Israeli nation as an historical entity as a social reality and as a communal identity      **Palestine and the Great Feud** Labeeb Ahmed Bsoul,2022-12-13 This volume analyzes the early period of the Arab Israeli conflict 1897 1948 which encompasses the emergence of the Zionist movement and the end of the First World War Zionism and Western colonialism continue to play a definitive role in shaping the fate of the Palestinian cause The author argues that it is possible to understand the existence of such a relationship between Zionism and Western colonialism by looking at the unity of purpose of both approaches and the international circles in which Zionism has been supported from the very beginning Zionism does not correspond to a natural course of national development such as the origin language and cultural unity of a nation residing in lands where its ancestors lived but is an international idea that transcends territoriality Similarly Western colonialism which aims to design an extra territorial framework follows the same path as Zionism in this framework      **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included      **Documentors of the Dream** Vivienne Silver-Brody,1998 Over 225 striking black and white photographs comprise this comprehensive book the first to chart the origins and development of Eretz Israel as seen through the eyes of Jewish photographers      **Rethinking Jewish History and Memory Through Photography** Ofer Ashkenazi,Thomas Pegelow Kaplan,2025-08-01 Reveals the significance of photography in modern Jewish history and memory Rethinking Jewish History and Memory Through Photography highlights the significant role of photography in modern Jewish history and memory Considering photographs as unique documents that not only depict reality but also shape how it is perceived and remembered the volume emphasizes the importance of careful photographic analysis in understanding modern Jewish experiences self perceptions and memories Bringing together leading and emerging scholars the book offers a range of innovative approaches to central themes in modern Jewish history including nationalism migration race and antisemitism In addition to the discussion of various case studies a variety of methodological approaches
