The Net Bible Synopsis of the Four Gospels Gregory White, 2009-04 A synopsis is a tool which displays different passages of a text side by side for comparison. This is most commonly done with the four Gospels of the New Testament because of their similar material but it could reasonably be done with any text that has similar passages such as the Old Testament historical narratives. The synopsis you presently hold contains the four Gospels of the New Testament. It is different from comparing parallel versions such as one English translation to another because all of the passages displayed in this synopsis are from the same version the NET Bible. It is different from a harmony because the passages are not reorganized into one story each. Gospel in a synopsis is separate from the others and can be read by itself or in comparison with the others. This parallel arrangement enables fruitful comparison of the Gospels to each other so each may be understood well on its own in light of the others A Commentary on the Holy Scriptures: Job Johann Peter Lange, 1872
