**From Syntax to Text** Libuše Dušková, 2015      From Syntax to Text: The Janus Face of Functional Sentence Perspective

Libuše Dušková, 2015-10-01 The volume presents the author's articles written in the last fifteen years dealing with the interaction between syntax functional sentence perspective information structure and text in present day English. It is divided into five parts: I Syntactic Constancy II Syntax FSP Interface III FSP and Semantics IV Syntax FSP Text and V Style which reveal the two facets of functional sentence perspective syntactic structures as realization forms of the carriers of FSP functions and the connection of FSP with the level of text. The first and the last two parts frame the content of the volume in treating the role of functional sentence perspective at the syntactic and the textual levels. At the former FSP is investigated as a potential factor of syntactic divergence between English and Czech; at the latter the role of FSP is examined with respect to theme development text build up and style. The points discussed in the other parts concern among others the hierarchical relationship between syntax and FSP the question of potentiality in FSP structure different realization forms of FSP structure and FSP functions general and specific questions of word order with major attention paid to the role of semantics.      *The Syntax of Sentence and Text* Světlava Šmejrková, František Ptáčka, 1994-01-01 This is a collection of papers inspired by the work of František Danes and is published in honour of his 75th birthday. **Syntactic and FSP Aspects of the Existential Construction in Norwegian** Pavel Dubec, 2019-04-01 The book discusses the information structure approach as introduced by the Prague linguistic circle and elaborated in the first place by Jan Firbas one of the key persons in the field of functional sentence perspective FSP and further by Ale Svoboda Libuše Dušková or Martin Adam. It explores the Norwegian existential construction from the syntactic and FSP points of view but also discusses selected FSP aspects in general. The theory of functional sentence perspective has been attested to multiple languages such as Czech English German Russian French Italian or Spanish. This book attempts among other things to attest its applicability to Norwegian and thus demonstrate its universal nature at least in the field of Indo European languages.

*Linguistics and Language Behavior Abstracts*, 1999 **Functional Sentence Perspective in Written and Spoken Communication** Jan Firbas, 1992-06-25 Inspired by the ideas of the Prague School the theory of functional sentence perspective FSP is concerned with the distribution of information as determined by all meaningful elements from intonation for speech to context A central feature of FSP is communicative dynamism Jan Firbas discusses the distribution of the degrees of communicative dynamism over sentence elements which determines the orientation or perspective of the sentence He examines also the relation of theme and rheme to and implementation by syntactic components Special attention is paid to the relation between FSP and word order The second part of the book deals with spoken communication and considers the place of intonation in the interplay of FSP factors establishing the concept of prosodic prominence It tackles the relationship between the distribution of degrees of communicative dynamism as determined by the interplay of the non prosodic FSP factors and the distribution of degrees of prosodic prominence as brought about by intonation **Historical English**
