The Great Flying Saucer Hoax Coral E. Lorenzen,1962 Nazi Wireless Propaganda Martin A. Doherty,2021-06-24 This is the first book devoted exclusively to the analysis of the Nazis radio effort against the United Kingdom during the Second World War It traces the development of the German propaganda service and looks to erode the myth surrounding Lord Haw Haw the superpropagandist Propaganda is presented in context the purposes behind it the changing patterns themes styles and techniques employed and the impact upon the target audience and its morale An analysis of the Nazi wireless broadcasts to Britain for the whole of the Second World War reveals a sophisticated and intelligent propaganda assault on the social and economic fabric of British society In the end the British failed to succumb to the stupefying effects of Nazi propaganda and they traditionally congratulate themselves upon the national unity which immunised them against it The author argues that this traditional view disguises a more complex less appealing reality Free CDIncludes a CD of 24 German wartime broadcasts to BritainKey Features Exposition of organisational structure of Nazi wireless for the UK Detailed analysis of style and content of propaganda broadcasts Careful and critical re appraisal of British domestic morale and national unity CD insert of 24 recordings of Nazi broadcasters including William Joyce John Amery Edward Dietze Norman Baillie Stewart Edward Bowlby and Black propaganda broadcasts

Havana Syndrome

Armin Krishnan,2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of

the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks

Artificial Intelligence and International Conflict in Cyberspace Fabio Cristiano,Dennis Broeders,François Delerue,Frédéric Douzet,Aude Géry,2023-05-11 This edited volume explores how artificial intelligence AI is transforming international conflict in cyberspace Over the past three decades cyberspace developed into a crucial frontier and issue of international conflict However scholarly work on the relationship between AI and conflict in cyberspace has been produced along somewhat rigid disciplinary boundaries and an even more rigid sociotechnical divide wherein technical and social scholarship are seldomly brought into a conversation This is the first volume to address these themes through a comprehensive and cross disciplinary approach With the intent of exploring the question what is at stake with the use of automation in international conflict in cyberspace through AI the chapters in the volume focus on three broad themes namely 1 technical and operational 2 strategic and geopolitical and 3 normative and legal These also constitute the three parts in which the chapters of this volume are organised although these thematic sections should not be considered as an analytical or a disciplinary demarcation This book will be of much interest to students of cyber conflict AI security studies and International Relations The Open Access version of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license

Burroughs Unbound S. E. Gontarski,2021-11-18 In addition to contributing significantly to the growing field of Burroughs scholarship Burroughs

Unbound also directly engages with the growing fields of textual studies archival research and genetic criticism asking crucial questions thereby about the nature of archives and their relationship to a writer's work. These questions about the archive concern not only the literary medium. In the 1960s and 1970s Burroughs collaborated with filmmakers sound technicians and musicians who helped re-contextualize his writings in other media. Burroughs Unbound examines these collaborations and explores how such multiple authorship complicates the authority of the archive as a final or complete repository of an author's work. It takes Burroughs seriously as a radical theorist and practitioner who critiqued drug laws sexual practice censorship and what we today call a society of control. More broadly his work continues to challenge our common assumptions about language authorship textual stability and the archive in its broadest definition. *American Journalism Review*, 2010. **Secret Weapons -- Secret Agents** Jacques Bergier, 1956. **Terrorism: U.S. perspectives**
