### **Good Practices in Addressing Illegal Betting: A Handbook for Horse Racing and Other Sports to Uphold**

**Match-Fixing in Sport** Stacey Steele, Hayden Opie, 2017-11-20 Match fixing represents a greater potential threat to the integrity of sport than doping It has been linked to organised crime illegal drugs and money laundering Law enforcement and sporting authorities are struggling to establish legal and regulatory responses to this emerging threat particularly in light of cross border internet gambling This book examines match fixing and the legal responses to it in three key Asian sporting nations Australia Japan and Korea It explores the significance of legal regulatory and cultural differences and draws lessons in terms of best practice and enforcement for legal and sporting authorities around the world Including key insights from players the betting industry law enforcement and prosecution authorities it discusses the strengths and weakness of current anti corruption strategies in the three jurisdictions Match Fixing in Sport Comparative Studies from Australia Japan Korea and Beyond offers important insights for all students and scholars with an interest in sport studies law criminology and Asian studies

**Major Companies of Asia and Australasia** Graham & Whiteside, Limited, Manly, Inc, 2007-12 V 1 South Asia v 2 East Asia v 3 Australasia v 4 South Asia      **International Gaming & Wagering Business** , 2007      *Legal Aspects of Privatisation* Bulent Seven, 2002 The main aims of this thesis are as follows a To present a comprehensive analysis of the concept of privatisation its origins and limits b To identify the legal and institutional framework for privatisation in different European countries from a comparative perspective c To define and analyse particularly legal issues which arise during the privatisation transactions e g labour law competition law etc d To evaluate which features of the successful legal and

organisational framework of privatisation have been successful so as to provide guidelines for those individuals and organisations participating in the privatisation exercises This work found out that there is no simple internationally applicable recipe for privatisation various legal methods and techniques can be used to privatise state owned enterprises Because each country has different circumstances it is impossible to provide a unique model for privatisation each country needs to design its own model according to its circumstances Privatisation is an essential but insufficient element for structural economic reform in the economy and society Privatisation is not a panacea it is not the solution to every economic and administrative problem selling an enterprise to the private sector does not mean an end to all problems Also privatisation is not an overnight process or a magic touch it will be a lengthy process Furthermore a decision that something can be privatised does not mean that it should be privatised In that context privatisation is not good or bad it is an economic and social instrument If it is well designed it may bring substantial benefits to the economy and society In many countries many state owned enterprises particularly the ones which are financially weak have still not been privatised This finding revealed that the privatisation process will be in the political and economic agenda for at least few more decades

### **Stakeholder**

**Analysis and Sport Organisations** Anna-Maria Strittmatter,Josef Fahlén,Barrie Houlihan,2021-12-26 This book provides a critical examination of the origins and development of stakeholder theory within sport management research and expands the existing literature by providing insights on stakeholding in sport from various perspectives such as governance communication and marketing Examining cases from around the world and from a wide range of different sporting contexts each chapter reflects on key insights derived from stakeholder theory before offering an analysis of the limitations of the theory and the ways in which it might be fruitfully extended or developed It offers suggestions on how the literature on stakeholding in sport can be advanced in order to provide knowledge relevant not only to sport studies but also to organisation theory more broadly and points to future avenues of inquiry in order to extend the reach of stakeholder theory and other inter organisational perspectives in sport management research Stakeholder Analysis and Sport Organisations is fascinating reading for any advanced student researcher policy maker or practitioner with an interest in sport management sport governance sport development or organisational theory
