**Sport, Play, and Ethical Reflection** Randolph Feezell, 2010-10-01 In paperback for the first time Randolph Feezell's Sport Play and Ethical Reflection immediately tackles two big questions about sport What is it and Why does it attract so many people Feezell argues that sports participation is best described as a form of human play and the attraction for participants and viewers alike derives from both its aesthetic richness and narrative structure He then claims that the way in which sports encourage serious competition in trivial pursuits is fundamentally absurd and therefore participation requires a state of irony in the participants where seriousness and playfulness are combined Feezell builds on these conclusions addressing important ethical issues arguing that sportsmanship should be seen as a kind of Aristotelian mean between the extremes of over and under investment in sport Chapters on cheating running up the score and character building stress sport as a rule governed tradition bound practice with standards of excellence and goods internal to the practice With clear writing and numerous illuminating examples

Feezell demonstrates deep insight into both of his subjects
