Boom Byrne Hobart, Tobias Huber, 2024-11-19 A timely investigation of the causes of technological and scientific stagnation and a radical blueprint for accelerating innovation Read this book for the alternative history of our age Peter Thiel investor and author of Zero to One A must read for those who seek to build the future Marc Andreessen cofounder of Netscape and Andreessen Horowitz From the Moon landing to the dawning of the atomic age the decades prior to the 1970s were characterized by the routine invention of transformative technologies at breakneck speed By comparison ours is an age of stagnation Median wage growth has slowed inequality and income concentration are on the rise and scientific research has become increasingly expensive and incremental Why are we unable to replicate the rate of progress of past decades What can we do to reinvigorate innovation In Boom Byrne Hobart and Tobias Huber take an inductive approach to the problem In a series of case studies tracking some of the most significant breakthroughs of the past 100 years from the Manhattan Project and the Apollo program to fracking and Bitcoin they reverse engineer how transformative progress arises from small groups with a unified vision vast funding and surprisingly poor accountability They conclude that financial bubbles while often maligned as destructive and destabilizing forces have in fact been the engine of past breakthroughs and will drive future advances In other words Bubbles aren't all bad Integrating insights from economics philosophy and history Boom identifies the root causes of the Great Stagnation and provides a blueprint for accelerating innovation By decreasing collective risk aversion overfunding experimental processes and organizing high agency individuals around a transcendent mission bubbles are the key to realizing a future that is radically different from the present Boom offers a definite and optimistic vision of our future and a path to unleash a new era of global prosperity

The Roadmap to Investing in Yourself Tara Jabbaar-Gyambrah, Seneca Vaught, 2022-12-14 The Roadmap to Investing in Yourself The Real Costs of a College Education 2nd Edition discusses many of the economic misconceptions about earning a college degree While it is widely believed that attending college in itself guarantees wealth thinking of a college degree as a commodity has kept students parents and higher education professionals from understanding the full range of short term and long term costs This book illustrates how the promotion of education merely as a commodity comes

at a high price for both the individual and society Authors Tara Jabbaar Gyambrah and Seneca Vaught argue that the idea of investment must shift from a short sighted view focusing only on economic concerns to a broader and more holistic understanding of what college costs and what students can expect in return **'A' Level ICT** Pat M.
