Mental Health Tips Best Customer Service:

Reimagining Customer Service in Healthcare Jennifer L. FitzPatrick, MSW, CSP, 2023-02-28 Do you look forward to your next hospitalization or medical procedure If not you are far from alone Very few people enjoy needing a doctor physical therapist or other healthcare provider Even fewer look forward to needing a hospital assisted living home health or hospice services for themselves or their loved ones Dread of interacting with the healthcare system has skyrocketed because of the pandemic Distrust in public health officials and agencies is at an all time high Patients have died alone in the hospital because of ongoing COVID 19 policies Some outpatient health and mental health providers still refuse to see patients in person Prior to March 2020 patients dreaded the thought of needing healthcare services Now several years after waiting for things to get better they hate the thought of needing these services even more Reimagining Customer Service in Healthcare helps leaders and clinicians transform their organizations with simple creative strategies The results Previously reluctant uneasy and resistant patients clients and family caregivers become less stressed and more trusting *Government support towards the additional living costs of working-age disabled people* Great Britain: Parliament: House of Commons: Work and Pensions Committee, 2012-02-19 The Government's Welfare Reform Bill includes measures to introduce a new benefit in 2013 the Personal Independence Payment PIP will replace Disability Living Allowance DLA for working age claimants to help meet the additional living costs of disabled people A new eligibility assessment process will also be brought in But this report finds that the Government should not introduce Personal Independence Payment PIP assessments nationally until it has satisfied itself in the planned initial roll out of the new assessment in a limited geographical area that the assessment is empathetic and accurate The report highlights a number of areas of concern The current draft criteria on which the assessment will be based are still too reliant on a medical model of disability and may fail to take sufficient account of the impact of social practical and environmental factors such as housing and access to public transport on disabled people's ability to participate in society and the additional costs they therefore incur The Committee believes that the Government should listen to the views of disabled people and their representative organisations and conduct a further trial before the criteria are adopted and the new assessment is introduced Once the initial assessments for PIP have been completed in the first geographical area the Government should look again at the value of face to face assessments for PIP claims where claimants conditions are severe and unlikely to change It is also important that DWP gets the contracting process with the private suppliers right
