oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future

Hooked Emily McIntire, 2022-09-20 Once upon a time there was a little boy His belly full of laughter his life full of joy
Until one day something changed stripped his innocence away The hole inside making space for the devil to come and play
His dreams gone forever he grew up way too fast An endless night of crocodiles and watches made of glass He grew into a
villain the taste of vengeance on his tongue Craving to make his enemies pay for the misdeeds they had done Instead he
found a Darling girl and refused to let her go For what better way to make the man pay than to steal his little shadow
