### **Metal on Merseyside**

Nedim Hassan,2021-09-14 This is the first book to examine the partially hidden history of metal music scenes within the city of Liverpool and the surrounding region of Merseyside in the North West of England It reveals that while Liverpool has historically been portrayed as a certain kind of music city metal has been marginalized within its music heritage narratives This marginality was not inevitable The book illustrates how it is not merely the product of historical representation but the result of forces of urban change and regional shifts in the economy of live music Nor is this marginality inconsequential Drawing on ethnographic research Nedim Hassan demonstrates that it has influenced how the region's metal scenes are perceived and how people feel towards them Metal on Merseyside reveals how various people involved with such scenes work within often challenging circumstances to sustain the production of metal music and events It also reveals the tensions that arise as scene members desires for an ideal metal community collide with forces of change Metal on Merseyside is therefore a fascinating barometer for the contradictions apparent when people engage in creative labour to produce music that they love
