

# Morality

“Freedom makes humans moral subjects”

- Morality: the sinfulness or goodness of an act
  - Humans have inherited the wisdom and goodness of the Creator who gave humans mastery over their acts and the ability to govern themselves with a view to the TRUE and the GOOD.
- In order to believe this you must believe that there is such a thing as *objective truth* and *good*

Judaism at the World's Parliament of Religions ,1894    Introduction to the History of Modern Philosophy Arthur Stone Dewing,1903    The Scope of Autonomy Katerina Deligiorgi,2012-05-31 Katerina Deligiorgi offers a contemporary defence of autonomy that is Kantian in orientation but which engages closely with recent arguments about agency morality and practical reasoning Autonomy is a key concept in contemporary moral philosophy with deep roots in the history of the subject However there is still no agreed view about the correct way to formulate an account of autonomy that adequately captures both our capacity for self determination and our responsiveness to reasons The theory defended in The Scope of Autonomy is distinctive in two respects First whereas autonomy has primarily been understood in terms of our relation to ourselves Deligiorgi shows that it also centrally involves our relation to others Identifying the intersubjective dimension of autonomy is crucial for the defence of autonomy as a morality of freedom Second autonomy must be treated as a composite concept and hence not capturable in simple definitions such as acting on one's higher order desires or on principles one endorses One of the virtues of the composite picture is that it shows autonomy lying at the intersection of concerns with morality practical rationality and freedom Autonomy pertains to all these areas though it does not exactly coincide with any of them Proving this and so tracing the scope of autonomy is therefore essential Deligiorgi shows that autonomy is theoretically plausible psychologically realistic and morally attractive    **Moral Order and Progress** Samuel Alexander,1889    **The Ethics of Freedom** Jacques Ellul,Geoffrey William Bromiley,1976    **Ethics and the materialistic conception of history** Karl Kautsky,1909    Hibbert Journal ,1903    *The Will to Freedom, Or, The Gospel of Nietzsche and the Gospel of Christ* John Neville Figgis,1917    Mind ,1908 A quarterly review of philosophy
