side that is being hit In terms of block low kicks there s nothing better than the good ole check Checking a low kick is as simple as lifting your leg so that the blade of the shin is facing where your opponent s leg is kicking Catching kicks is another way to defend against kicks and it can set up some unique offense for you The idea is to grab a kick after the point where it would hurt the most Catching roundhouse kicks and teeps to the body are easy You just need to move out in the way the kick is moving so that you don t take the brunt of the force For the roundhouse move out to the side the kick is moving and reach over and around the kick like a wrestler s overhook For the teep you want to move back very slightly and grab the heel with one hand and the top of the ankle or instep with the other Catching roundhouse kicks to the head is also easy if not somewhat more risky You are still going to step out to the side but you are going to block with your close arm With the far side arm you are going to reach under and over to grab the kick kind of like a wrestler s underhook You can catch kicks to the legs in Muay Thai but this isn t recommended This is because in Muay Thai catching a low kick is a high risk low reward technique Trying to grab a low kick leaves your head exposed which a high level kicker will take advantage of Also with how much better checking low kicks usually is catching a low kick just isn t worth it Ready to learn more Get a Copy of This Book Now
