**Time and Narrative, Volume 3** Paul Ricoeur, 2024-05-31 In the first two volumes of this work Paul Ricoeur examined the relations between time and narrative in historical writing fiction and theories of literature This final volume a comprehensive reexamination and synthesis of the ideas developed in volumes 1 and 2 stands as Ricoeur s most complete and satisfying presentation of his own philosophy Ricoeur s aim here is to explicate as fully as possible the hypothesis that has governed his inquiry namely that the effort of thinking at work in every narrative configuration is completed in a refiguration of temporal experience To this end he sets himself the central task of determining how far a poetics of narrative can be said to resolve the aporias the doubtful or problematic elements of time Chief among these aporias are the conflicts between the phenomenological sense of time that experienced or lived by the individual and the cosmological sense that described by history and physics on the one hand and the oneness or unitary nature of time on the other In conclusion Ricoeur reflects upon the inscrutability of time itself and attempts to discern the limits of his own examination of narrative discourse As in his previous works Ricoeur labors as an incomparable mediator of often estranged philosophical approaches always in a manner that compromises neither rigor nor creativity Mark Kline Taylor Christian Century In the midst of two opposing contemporary options either to flee into ever more precious readings or to retreat into ever more safe readings Ricoeur s work offers an alternative option that is critical wide ranging and conducive to new applications Mary Gerhart Journal of Religion

**Hidden in Historicism** Harry Jansen, 2020-06-10 Hidden in Historicism considers how the nineteenth century philosophy of historicism depicts three forgotten time regimes a time of rise and fall an ambiguous time of synchronicity of the non synchronous and a time in which decisive moments dominate Before the eighteenth century time was past oriented This inversed in the Enlightenment when the future became dominating Today this time of progress continues to be embraced as a time of the modern Yet inequality increasing violence and climate change lead to doubts over a bright future In this book Harry Jansen moves away from the heritage of Reinhart Koselleck and his single time of the modern towards a historicist threefold temporal approach to history writing In the time regime of the twenty first century past present and future coexist It is a heterogeneous time that takes on the three forms of historicism Jansen's study shows how all three times exist together in current historiography and contribute to a better understanding of the world today Based on the idea that an incarnated time rules everything that happens in reality the book offers a fresh perspective on the ongoing discussion about time and time regimes in contemporary philosophy and theory of history for students and scholars both time specialists and the non specialist

The Resources of Rationality Calvin O. Schrag, 1992 Schrag has addressed the important problems put forth by thinkers ranging from Habermas to Lyotard and Deleuze and has confronted them openly and honestly This work will be useful to all who wonder what to do about the largely negative results of postmodern thought Joseph C Flay The Resources of Rationality addresses the postmodernist assault on the claim of reason and develops a refigured notion of rationality to meet the charges and challenges of postmodern thought Calvin O Schrag responds to the postmodernist indictment of the claims of reason by working out a fresh approach which he calls the transversal rationality of praxis With the concept of transversality as a binding theme Schrag identifies and delineates the function of three powerful resources of reason critique articulation and disclosure Cutting across multiple and changing discursive and social practices transversal thinking as delineated by Schrag charts a new course between the classical and modern overdetermination of

rationality and the dissolution of the rational subject in postmodern philosophy      Echoing Events Tina van der Vlies,2022-12-12 Echoing Events questions the perpetuation actualization and canonization of national narratives in English and Dutch history textbooks wide reaching media that tendentially inspire a sense of meaning memory and thus also identity The longitudinal study begins in the 1920s when the League of Nations launched several initiatives to reduce strong nationalistic visions in textbooks and ends in the new millennium with the revival of national narratives in both countries The analysis shows how and why textbook authors have narrated different histories which vary in terms of context epoch and place as echoing events by using recurring plots and the same combinations of historical analogies This innovative and original study thus investigates from a new angle the resistance of national narratives to change      **Historical**

**Consciousness and Practical Life** Paul Zanazanian,2024-11-30 Historical Consciousness and Practical Life introduces a novel approach to examining how people construct and employ historical knowledge in their daily lives In viewing history as an embodied cultural practice that constitutes the background to our meaning making the book demonstrates how researchers and others can investigate the ways in which people make sense of time s flow in their now moment engagements with the world and use that information to position themselves regarding key social problems with historical roots The book provides a glimpse at how humans enter historically embedded thinking problems seeking to resolve them Paul Zanazanian draws on a study of the community leaders of English speaking Quebec to illustrate the practical life methodology s workings In looking at their different uses of history for strengthening their group s vitality in the province he identifies five key stances these leaders employ for positioning their sense of purpose and responsibility for securing English speaking Quebec s future Ultimately Historical Consciousness and Practical Life argues that community leaders who complicate and problematize their uses of history are the best positioned to make positive transformations for their group
