Bremmer, 2012-05-01 G Zero JEE ZEER oh n A world order in which no single country or durable alliance of countries can meet the challenges of global leadership What happens when the G20 doesn t work and the G7 is history If the worst threatened a rogue nuclear state with a horrible surprise a global health crisis the collapse of financial institutions from New York to Shang hai and Mumbai where would the world look for leadership The United States with its paralyzed politics and battered balance sheet A European Union reeling from self inflicted wounds China s people s democracy Perhaps Brazil Turkey or India the geopolitical Rookies of the Year Or some grand coalition of survivors the last nations stand ing after half a decade of recession induced turmoil How about none of the above For the first time in seven decades there is no single power or alliance of powers ready to take on the challenges of global leadership A generation ago the United States Europe

and Japan were the world's powerhouses the free market democracies that propelled the global economy forward Today they struggle just to find their footing Acclaimed geopolitical analyst Ian Bremmer argues that the world is facing a leadership vacuum The diverse political and economic values of the G20 have produced global gridlock Now that so many challenges transcend borders from the stability of the global economy and climate change to cyber attacks terrorism and the security of food and water the need for international cooperation has never been greater A lack of global leadership will provoke uncertainty volatility competition and in some cases open conflict Bremmer explains the risk that the world will become a series of gated communities as power is regionalized instead of globalized In the generation to come negotiations on economic and trade issues are likely to be just as fraught as recent debates over nuclear nonproliferation and climate change Disaster thankfully is never assured and Bremmer details where the levers of power can still be found and how to exercise them for the common good That's important because the one certainty of weakened nations and enfeebled institutions is that someone will try to take advantage of them Every Nation for Itself offers essential insights for anyone attempting to navigate the new global playing field **The Wall Street Journal** ,2009 *Social Media in Higher Education* Heather T.

Rowan-Kenyon, Ana M. Martínez Alemán, 2016-09-14 Social media is central to postsecondary education It is how students engage with the campus community and campus leaders and practitioners are interested in how an institution can employ social media to impact instruction student services and institutional effectiveness in an increasingly competitive market This volume presents the current research and scholarship on social media that provides a view of the higher education landscape in this new digital age and it demonstrates how social media influence behavior and campus culture Drawing on a critical synthesis and analysis from recent research on this rapidly evolving phenomenon this monograph examines some of the assumptions and presumptions around social media how social media is used and how it shapes the student experience and student development and best practices for enhancing curricular and co-curricular communities of practice This is the 5th issue of the 42nd volume of the Jossey Bass series ASHE Higher Education Report Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences Topics are identified by a national survey Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication *The College Admissions Officer's Guide* Barbara
