## Trio Consulting delivers DAU certified training nationwide to meet *your* timelines.

SYS 203, Intermediate Systems Planning, Research, Development, and Engineering, Part II, enables students to expand use of the DoD systems engineering (SE) processes and techniques learned in SYS 202. Participants work in integrated product teams (IPTs) and apply systems engineering technical and management processes to a defense system as it is developed across the various phases of the acquisition lifecycle. Students discuss requirements to design, develop, implement, oversee, and operate a CM program across the system lifecycle. SYS 203 is critical for Level II certification in the Systems Planning, Research, Development, and Engineering—Systems Engineering (SPRDE-SE) career field.
