Sound Doctrine A Tactical Primer:

Sound Doctrine Charles Heal, 2000-07 In recent years law enforcement has suffered a number of tactical fiascos. Officers and agencies have been the subject of civil and criminal sanctions, public confidence has deteriorated and lives have been lost. Unlike most tactical books which teach tactics as a skill set, this book emphasizes an intuitive application of fundamental principles. These principles have evolved over centuries of tactical operations and form a body of sound doctrine. Heal not only presents a distillation of the more than ninety tactical texts but provides an insightful and compelling call for rethinking tactics of law enforcement. Assuming no prior experience or understanding of tactical matters, Heal draws from everyday life such as competitive games, driving, or planning a vacation to show how to reconceptualize a difficult situation. Because of the fundamental concepts, Heal explores, apply to all types of emergencies. **Sound Doctrine** is suitable for not only law enforcement but firefighters, private security, and other emergency responders.

Field Command Charles "Sid" Heal, 2012 **Field Command** is a first of its kind, a full length tactical science textbook focused specifically on crisis situations faced by the law enforcement community. It expands on the concepts laid out in Heal's **Sound Doctrine A Tactical Primer**. The concepts and principles are taken from tactical texts and military field manuals and are presented as close to how they are used as possible. To facilitate understanding, illustrations are abundant and not only clarify the text but amplify it with new insights and applications.

Sound doctrine, 1957 *Fifth Dimensional Operations* Charles Heal, Robert J. Bunker, 2014-07-15 Examples of 5th dimensional practical applications derived from advanced weaponry which generates an invisible pain barrier and a video camera infrared attachment which allows for crossing the human sensing dimensional barrier and seeing into barricaded rooms.

Red Teams and Counterterrorism Training Stephen Sloan, Robert J. Bunker, 2012-09-14 Keeping ahead of terrorists requires innovative up to date training. This follow up to Stephen Sloan's pioneering 1981 book *Simulating Terrorism* takes stock of twenty first century terrorism then equips readers to effectively counter it. Quickly canvassing the evolution of terrorism and of counterterrorism efforts over the past thirty years, co authors Sloan and Robert J. Bunker draw on examples from the early 2000s following the World Trade Center and Pentagon attacks to emphasize the need to prevent or respond quickly to active aggressors, terrorists who announce their presence and seek credibility through killing. Training for such situations requires realistic simulations whose effectiveness the authors show depends on incorporating red teams, that is the groups that play the part of active aggressors. In **Red Teams and Counterterrorism Training**, Sloan and Bunker, developers of simulation driven counterterrorist training, take readers through the prerequisites for and basic principles of conducting a successful simulation and preparing responders to face threats whether from teenage shooters or from sophisticated terrorist organizations. The authors clearly explain how to create an effective red team whose members can operate from within the terrorists' mindset. An innovative chapter by theater professional Roberta Sloan demonstrates how to use dramatic techniques to teach red teams believable role playing.

Rounding out this book a case study of the 2009 shooting at Fort Hood illustrates the cost of failures in intelligence and underscores the still current need for serious attention to potential threats First responders whether civilian or military will find Red Teams and Counterterrorism Training indispensable as they address and deter terrorism now and in the future

Non-state Threats and Future Wars Robert J. Bunker, 2003 The intent behind this book was to bring together a team of defence and national security scholars and real world military and law enforcement operators to focus on the topic of Non State Threats and Future Wars The book is divided into four main sections The first concerns theory The second section concerns non state threats and case studies providing an overview of non state threats ranging from organized crime networks to cartels gangs and warlords The third section is based on counter OPFOR opposing force strategies which detail advanced concepts urban battlespace environmental perceptions weaponry intelligence preparation networked force structure and C4I The fourth and final section contains an archival document from the late 1987 period concerning early Fourth Epoch War theory and never before published interviews with Chechen commanders and officers who participated in combat operations against Russian forces in the 1994 96 war

Evaluating Police Uses of Force Seth W. Stoughton, Jeffrey J. Noble, Geoffrey P. Alpert, 2021-02-01 Provides a critical understanding and evaluation of police tactics and the use of force Police violence has historically played an important role in shaping public attitudes toward the government Community trust and confidence in policing have been undermined by the perception that officers are using force unnecessarily too frequently or in problematic ways The use of force or harm suffered by a community as a result of such force can also serve as a flashpoint a spark that ignites long simmering community hostility In *Evaluating Police Uses of Force* legal scholar Seth W Stoughton former deputy chief of police Jeffrey J Noble and distinguished criminologist Geoffrey P Alpert explore a critical but largely overlooked facet of the difficult and controversial issues of police violence and accountability how does society evaluate use of force incidents By leading readers through answers to this question from four different perspectives constitutional law state law administrative regulation and community expectations and by providing critical information about police tactics and force options that are implicated within those frameworks *Evaluating Police Uses of Force* helps situate readers within broader conversations about governmental accountability the role that police play in modern society and how officers should go about fulfilling their duties

Critical Issues in Policing Roger G. Dunham, Geoffrey P. Alpert, Kyle D. McLean, 2020-07-01 The eighth edition of this comprehensive collection includes carefully chosen articles with fresh perspectives on the most current trends in policing *Critical Issues in Policing* provides ready access to the brightest minds in the field of policing The 36 contributions sharpen understanding of the intricacies of police work and encourage readers to change from holding the police responsible for crime rates to holding them accountable for specific goals tasks and objectives The new edition continues its authoritative insightful coverage of complex elements of policing and presents vivid and pragmatic illustrations of law enforcement issues The anthology offers an alternative to traditional policing texts It

covers philosophies of policing that guide discussions about police culture police misconduct use of force operational concerns and technological innovations *CONCEPTS OF NONLETHAL FORCE* CHARLES "SID" HEAL,2021

Forthcoming Books Rose Arny,2000 **Subject Guide to Books in Print** ,1991 **An Illustrated Guide to Tactical Diagramming** Charles Heal,2011-07 This book is not about construction although you will learn about building codes and practices It is not about tactics although the information gained by knowing a floor plan will undoubtedly affect them Instead this book is designed to provide a quick and simple method of confidently determining floor plans by using outside architectural features Using this essential tool for quick and clear comprehension of tactical diagramming even a novice tactical planner will learn to use windows doors vents and other clues to confidently determine interior features After reading this book it will be clear that the proverbial glass house is in the mind s eye Infantry Journal ,1941 **Military Strategy** Bill Bentley,2011 *The Journal of English and Germanic Philology* ,1958 The Journal of Education ,1884
