The Economic Diplomacy of the Suez Crisis Diane B. Kunz Esq., 2000-11-09 Diane Kunz describes here how the United States employed economic diplomacy to affect relations among states during the Suez Crisis of 1956 57 Using political and financial archival material from the United States and Great Britain and drawing from personal interviews with many of the key players Kunz focuses on how economic diplomacy determined the course of events during the crisis from start to finish In doing so she provides both an excellent case study of the role of economic sanctions in international relations and a solid treatment of the American use of such sanctions against a Middle Eastern country The crisis was prompted by the Eisenhower administration s decision not to fund the Aswan High Dam triggering the takeover of the Suez Canal Company by Egyptian President Gamal Abdel Nasser Responding to events the American government imposed economic sanctions against Great Britain France Egypt and Israel with varying degrees of success Because of its weakened financial position and misguided decisions Kunz says the government of British Prime Minister Anthony Eden proved most vulnerable to these tactics Indeed American economic pressure caused the British government to withdraw its troops ignominiously from Egypt France on the other hand had borrowed sufficiently prior to the crisis to be able to withstand American pressure For Israel Kunz says the threat of sanctions symbolized the Eisenhower administration s wrath Israel could forego American funds but dependent on the goodwill of a great power for survival it could not take a stand that would completely alienate the United States Only Egypt proved immune to financial warfare Kunz also illuminates the general diplomacy of the Suez crisis The American government was determined neither to alienate moderate Arab opinion nor to become too closely intertwined with Israel As such this account has significant lessons for American policy Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Forum, 2020-06-26 On October 14 1953 Pope Pius XII presided over the dedication of the new Pontifical North American College seminary on the Janiculum Hill above Saint Peter s Basilica Nearly one hundred years had passed since the seminary s founding and the Pope considered the new campus completion a stronger flame of hope for the Church in the United States of America and in the world Devotion to the Holy Father the grace of priestly ordination and a solid training in the Church s teachings were the three treasures that young men trained at the NAC brought back with them to the United States as priests In this follow up to Father Robert McNamara s monumental work *The American College in Rome 1855 1955* Monsignor Stephen M DiGiovanni advances the history of the College over the next quarter century The American students

in the 1950s were not the same as those who had lived in the old seminary during the previous century The world was very different after numerous revolutions social upheavals and two world wars Other forces were at work as well including some changes just beginning to take place in American society which would become radically and publicly manifest on American university and seminary campuses during the next decades even in Rome If prior to the Second Vatican Council everything was clear and regimented then during and after the Council less and less was clear cut or well defined on the Hill of Janus In fact few could have predicted the aggiornamento or updating that was on the horizon that would profoundly reshape for better or worse the NAC and its future priests
