,2002-05 **Here be Yaks** Manosi Lahiri,2006 In the year 2000 a group of ordinary people undertook an extraordinary journey to one of the most isolated parts of the world Far West Tibet From Lhasa in the east they travelled west across the Tibetan plateau on the forgotten Tasam Highway They stopped at old tasams or stage posts and were charmed by the stark beauty and local folklore of the country Fighting exhaustion and High Altitude Sickness the group completed the strenuous and demanding circumambulation kora around the sacred Mount Kailash They come across a map of the region indicating two different sources of the river Sutlej That the author was convinced was a mystery she was destined to solve They noted that in the land of practising Buddhism legends about mountains streams and lakes were intertwined with observations made by early surveyors and explorers When they reached the remote lakes Manasarovar and Rakas Tal they found the Ganga chu the stream traditionally known to join the two lakes had disappeared for long distances This fact further strengthened the resolve to find the present source of the river Sutlej The author returned to Far West Tibet with her travel companions once more in the Year of the Horse 2002 They found that Lhasa had changed visibly in two years and their sojourn there was marked by nervous tension as the group was split But the journey to the Far West was more magical than the previous one In a strange trick of nature while standing on the ground they saw the tops of the Himalayan peaks from above Apprehensive and hallucinating they walked the hidden inner kora path of Mount Kailash and kora of Lake Manasarovar following the footsteps of past sages and monks Finally when the group reached the Lost Guge Kingdom in the heart of a barren land they were surprised to find an abandoned citadel carved out of a hill on the banks of the Sutlej They were concerned that the river was being dammed at the Zada gorge and its possible impact downstream in India But they were astonished and enchanted at the vibrancy of the fine art and rich colours of the chapels in Tsaparang and the Toling monastery The unusual name of the book is derived from the idea of early navigation maps In olden times when there were vast expanses left unexplored cartographers marked uncharted lands and seas with the words Here Be Dragons This was a warning to travellers of potential dangers In a similar vein Here Be Yaks forewarns the reader of a journey to a land that is yet to be fully explored and is full of unexpected happenings It is also the land of the yak **The Georgia Review** ,2010 **India Today** ,2003

The Dynamics of Chinese Regional Development Jane Golley,2007 This book surveys the competing or sometimes complementary roles of the state and the market in shaping China s pattern of regional development during the Communist era The uneven pace of industrialisation across China s provinces during its economic transition raises numerous questions regarding spatial patterns of industrial development in a developing transitional economy Jane Golley s book answers

questions such as Why have inter regional inequalities in industrial development come to exist Why are they tending to increase How have regional policies and reform strategies impacted on these trends How if at all can these trends be reversed A comparative economic systems analysis of the Mao and Deng eras combined with theoretical and empirical evidence of the disequilibrium nature of regional development depicts the recent trend of rising inequality across China as being both inevitable and ongoing The central government s Western Development Strategy is assessed in this context The most novel contribution of the book is the development of a framework for thinking about regional development and policy which combines two distinct approaches new economic geography and comparative economic systems analysis which can be used to understand patterns of regional development anywhere in the world The application of this framework to regional development during the Mao and Deng eras provides a uniquely holistic and easy to read coverage of the topic The Dynamics of Chinese Regional Development will appeal to undergraduate and postgraduate students of the Chinese economy The book will also find an audience in scholars and researchers of Chinese and Asian studies more generally as well as students and scholars of economics political economy and regional science
