Tibetan Medicine Illustrated In Original Texts:

Tibetan Medicine Rechung Rinpoche, 2001 Includes translation of second and fourth treatises called B ad rgyud and Phyi rgyud of the Rgyud b i along with life of great physician saint GYu thog Yon tan mGon Po Tibetan Medicine Ras-chung-'jam-dpal-kun-bzang (Rin-po-che), 1973 Tibetan medicine , 1973 *Medicine and Memory in Tibet* Theresia Hofer, 2018-04-03 Open access edition DOI 10 6069 9780295743004 Only fifty years ago Tibetan medicine now seen in China as a vibrant aspect of Tibetan culture was considered a feudal vestige to be eliminated through government led social transformation *Medicine and Memory in Tibet* examines medical revivalism on the geographic and sociopolitical margins both of China and of Tibet s medical establishment in Lhasa exploring the work of medical practitioners or amchi and of Medical Houses in the west central region of Tsang Due to difficult research access and the power of state institutions in the writing of history the perspectives of more marginal amchi have been absent from most accounts of Tibetan medicine Theresia Hofer breaks new ground both theoretically and ethnographically in ways that would be impossible in today s more restrictive political climate that severely limits access for researchers She illuminates how medical practitioners safeguarded their professional heritage through great adversity and personal hardship The Culture of the Book in Tibet Kurtis R. Schaeffer, 2014-10-07 The history of the book in Tibet involves more than literary trends and trade routes Functioning as material intellectual and symbolic object the book has been an instrumental tool in the construction of Tibetan power and authority and its history opens a crucial window onto the cultural intellectual and economic life of an immensely influential Buddhist society Spanning the fourteenth to the eighteenth centuries Kurtis R Schaeffer envisions the scholars and hermits madmen and ministers kings and queens who produced Tibet s massive canons He describes how Tibetan scholars edited and printed works of religion literature art and science and what this indicates about the interrelation of material and cultural practices The Tibetan book is at once the embodiment of the Buddha s voice a principal means of education a source of tradition and authority an economic product a finely crafted aesthetic object a medium of Buddhist written culture and a symbol of the religion itself Books stood at the center of debates on the role of libraries in religious institutions the relative merits of oral and written teachings and the economy of religion in Tibet A meticulous study that draws on more than 150 understudied Tibetan sources *The Culture of the Book in Tibet* is the first volume to trace this singular history Through a single object Schaeffer accesses a greater understanding of the cultural and social history of the Tibetan plateau **Islam and Tibet - Interactions along the Musk Routes** Anna Akasoy, 2016-12-14 The first encounters between the Islamic world and Tibet took place in the course of the expansion of the Abbasid Empire in the eighth century Military and political contacts went along with an increasing interest in the other side Cultural exchanges and the transmission of knowledge were facilitated by a trading network with musk constituting one of the main trading goods from the Himalayas largely through India From the thirteenth century onwards the spread of the Mongol Empire from the Western borders of Europe through

Central Asia to China facilitated further exchanges The significance of these interactions has been long ignored in scholarship This volume represents a major contribution to the subject bringing together new studies by an interdisciplinary group of international scholars They explore for the first time the multi layered contacts between the Islamic world Central Asia and the Himalayas from the eighth century until the present day in a variety of fields including geography cartography art history medicine history of science and education literature hagiography archaeology and anthropology **Tibetan Medicine** Ven. Rinpoche Rechung,2023-07-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976 *Contemporary Buddhist Ethics* Damien Keown,2013-01-11 This innovative volume brings together the views of leading scholars on a range of controversial subjects including human rights animal rights ecology abortion euthanasia and contemporary business practice From Hippocrates to COVID-19 Dale A. Stirling,2023-05-12 The COVID 19 pandemic provides stark evidence of the importance of medicine on a global scale However revisiting the influenza pandemic of 1918 provided a perspective as we searched for a viable vaccine and instituted public health measures This shows that medical knowledge is an accumulative process extending to the past and it is in the spirit of that legacy that this bibliography has been compiled The book is a one stop resource that cites literature related to the historical aspects of medicine It also acknowledges medicine s global reach and devotes significant effort in that respect Although the online world seems to dominate on both a social and educational level there is still a need for thoughtfully curated and focused reference works and this bibliography accomplishes that goal The book has 9 000 citations It utilizes the WHO s International classification of Diseases for the section on diseases and disorders and the U S Food Drug Administration s Product Code Classification Database for the section on medical devices equipment and instruments It includes detailed subject geographic and people indexes for an easy reference Heroes and Saints Phyllis Granoff,Koichi Shinohara,2009-05-05 The present volume makes a unique contribution to the study of dying in ancient cultures by focusing on what happens in the critical moments before death Employing a wide range of literary sources the essays in this volume focus exclusively on the moment of death and practices associated with the transition from this world to the next Five of the essays deal with Asian religions primarily Buddhism in India Tibet China and Japan The other five essays deal with the moment of death in the West old Norse Icelandic Old English and the Judeo Christian tradition The authors explore the many ways in which the good death was envisioned Remarkable parallels emerge between the good death in religious texts and in heroic sagas Despite the diversity of cultures time periods and religious traditions represented in these essays this volume vividly illustrates the fundamental human need to see in the inevitable moment of death a possibility of choice and a promise of hope **Catalogue of the Library of Tibetan Works & Archives, Reference Department**
