TIME Albert Einstein Richard Lacayo, The Editors of TIME, 2011-07-26 TIME invites readers to explore the life and times of one of history's greatest minds the genius selected by TIME as the Most Influential Person of the 20th Century The book provides an illuminating overview of Albert Einstein's life work and theories presented for the everyday reader It also explores the great physicist's life beyond the laboratory as an engaged citizen in an era of world conflict and it features scores of now little recalled photographs *TIME Albert Einstein* The Editors of TIME, 2017-05-26 Albert Einstein's immense breakthroughs in theoretical physics revolutionized our view of the cosmos and made him one of the towering figures of the 20th century a man whose name is synonymous with genius Einstein Richard Lacayo, 2011 A book with dozens of photos provides an overview of Albert Einstein's life work and theories **Albert Einstein** Richard Lacayo, 2011 An overview of the life and scientific impact of the eminent physicist Albert Einstein The Man Who Stalked Einstein Bruce J. Hillman, Birgit Ertl-Wagner, Bernd C. Wagner, 2015-04-16 By the end of World War I Albert Einstein had become the face of the new science of theoretical physics and had made some powerful enemies One of those enemies Nobel Prize winner Philipp Lenard spent a career trying to discredit him Their story of conflict pitting Germany's most widely celebrated Jew against the Nazi scientist who was to become Hitler's chief advisor on physics had an impact far exceeding what the scientific community felt at the time Indeed their mutual antagonism affected the direction of science long after 1933 when Einstein took flight to America and changed the history of two nations *The Man Who Stalked Einstein* details the tense relationship between Einstein and Lenard their ideas and actions during the eventful period between World War I and World War II I'll Never Tell Helen Lavinia Underwood, 2018-09-13 *I'll Never Tell* is a work of historical fiction set during the war years between 1941 and 1945 on the ridges and in the valleys of Eastern Tennessee Five young people from diverse backgrounds come together to tackle the mystery of a secret city a so called shining city on the hill 59 000 acres encircled by a barbed wire fence and guards with guns The government forced more than 3 000 people in five communities to give up their land so that a pre-fab city called Oak Ridge could be built Why did 75 000 workers pledge to keep total silence about what they were doing promising *I'll Never Tell* And why was all this foretold forty years earlier The novel follows Callie Saree Irene Billy and Jeff as they seek answers to these and other puzzling questions Ecological Politics John Rensenbrink, 2016-11-21 Rejection of politics is deep and widespread Even sincere and responsible individuals who practice it hold their nose while doing so Yet politics must be practiced and well if the planet and the people are to survive A clue for our future success as a species lies in the fact that ecology has never really been tried in politics Yet ecology holds the secret of success for planet and people precisely in politics Deep in ecology is the astounding fact scientifically examined and attested to that we are already related Though taught by elite after elite that we are separate from nature and thus from everyone and everything this can now be seen as the great mistake and a perpetuated lie from generation to generation A

new ontology of being related is the gateway of consciousness to a new and exciting politics for survival and democracy Waves of transformation lap at barriers in the political sphere But they are repulsed by an entrenched politics rooted not only in the greed and power hunger of a dominant few or in outmoded structures of economic and political power but in the old millennial ontology of being separate Our extraordinary times call for a new political party animated by the ecology of being related It is a party of a different kind one that frees itself from giant worldwide corporations is fully and overtly dedicated to non violence and rooted in the awareness that the people come first This party knows that elections must be fair and equal and must enable undistorted dialogue and that people in government must not only proclaim but practice the principle of being of for and by the people This book challenges The Green Party now on a footing in over 100 countries to be this party of a different kind
