

TEAS

Comprehensive 12 Week Study Plan

Week 1

Diagnostics & Review

Part 1: Diagnostics

- Take the free diagnostics for all 4 subjects:

- Math
- English Language Usage (ELU)
- Reading
- Science

Review your results:

For topics where you scored well, simply review the content and only make flashcards for concepts that you got wrong on each time.

For topics where you scored low, focus your attention on those questions and make flashcards for all of the important content to review throughout the month leading up to your exam.

You may also want to add your study plan based on your diagnostic results. If you scored poorly on a topic, set a topic up section and you have limited time, you can choose that out from your study plan and review it at the end of your exam time.

You can also focus topics where you scored lower on the diagnostics to come earlier in the study plan so that you have more time to review them!

WHAT IS COGNITIVE RECALL Cognitive Recall is the science of implementing the optimal space of time between learning something then reviewing it and later quizzing yourself on it Scientists say studying effectively is not a function of how long or how often you study it s the order schedule and timing of your studies Traditional study guides tend to be nothing more than extended versions of repeated cram sessions which is neither efficient or effective Cramming is the opposite of Cognitive Recall learning evidenced by the extremely short lived benefits The memories from a cram session have been shown to fade away after only a few hours That s not an option if you are serious about passing the ATI TEAS
