Let others issue proclamations from their ivory towers; we're sitting in the balcony or home by the hi-fi basking in the music that has given us such deep satisfaction and pleasure over the years. Classical Music Phil G. Goulding, 1995-10-17 *MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC* Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's *Rite of Spring* cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon, so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, *Classical Music* provides such essential information as Rankings of the top 50 composers (Bach is 1, Borodin is 50), a detailed and anecdotal look at each composer's life and work, the five primary works of each composer, and specific recommended CDs for each. Further great works of each composer, if you really like him. Concise explanations of musical terminology, forms, and periods. A guide to the parts and history of the symphony orchestra. This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars, devoted to lively anecdotes and catchy leads. The *Washington Post* One terrific music appreciation book. The information is surprisingly detailed but concisely presented; Goulding's writing style is breezy yet mature. He has raised music appreciation from a racket to a science. *The Arizona Daily Star*
