Remote Jobs Cyber Monday Top:

America's Top 100 Jobs for People Without a Four-year Degree Ronald L. Krannich, 2005 Many of today's jobs don't require an expensive four-year degree. A lot of the jobs require apprenticeship experiences or only require a few months of specialized training. This book is organized by 10 major occupational fields identifying 100 high-demand jobs. *Top 100 Careers Without a Four-year Degree* Michael Farr, 2009 Many jobs without a four-year degree are growing. Explore 100 careers that don't require a bachelor's degree, assess which ones match your skills, and get the job you want quickly with this authoritative resource. In one time-saving volume, job seekers and students find everything they need to research careers, learn about pay, outlook, education, and skills for the 100 jobs, match their personal skills to the jobs, and take seven steps to land a good job in less time. This book provides, in alphabetical order, thorough, current, and interesting descriptions of 100 jobs that you can obtain without four years in college. A special book within a book section describes the seven steps that cut job search time in half and includes sample targeted resumes by professional resume writers. An easy-to-use assessment matches your personal skills with the characteristics of the occupations described in the book. This new edition features fresh occupational facts and an at-a-glance Projections Data table through 2016 for every job. The Job Match Grid and the Quick Job Search section have been updated as well. Career Services and Workforce Development Centers for Libraries Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18 With the rise of unemployment, increased career growth opportunities, and changing workforce demographics, libraries can support job seekers in several ways. Career Services and Workforce Development Center for Libraries: A Guide serves as a resource for libraries interested in creating, supporting, or enhancing their career services, economic, and workforce development programs for their communities. Going beyond collection development and hosting job fair activities, the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations. Ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities, programs, and services show academic and public librarians can support their users exploring career opportunities and development. Examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities. How can one start a career services or job center program in their libraries? What are specialized career services in libraries being offered? How can libraries advocate for funding for workforce development? Divided into five chapters, each chapter addresses these questions and provides a series of examples, ideas, and resources for readers to consider replicating in their own libraries. If you are looking for ideas for your libraries to support a community of job seekers, this is the book for you. **Emerging Technologies, Novel Crimes, and Security** Hedi Nasheri, 2024-12-30 This book provides a holistic overview of the complexities of modern technological advances and their implications for crime and security. It examines the societal dilemmas that accompany these technologies, their strategic impact on geopolitics,

governments business and civil society The increasingly interconnected world gives rise to novel crimes and creates a new complex set of threats Understanding this landscape is essential to strategizing for the prevention protection mitigation and risk assessment of technology related crime Practical and approachable this book builds knowledge and awareness of the impact of emerging technologies on crime and security among professionals students academicians researchers and policymakers

Sustainable Cities Claudio Scardovi,2021-03-27 Global cities are facing an almost unprecedented challenge of change As they re emerge from the Covid 19 pandemic and get ready to face climate change and other potentially existential threats they need to look for new ways to support wealth and wellbeing creation leveraging Big Data and AI and suing them into their physical reality and to become greener more inclusive and resilient hence sustainable This book describes how new digital technologies could be used to design digital and physical twins of cities that are able to feed into each other to optimize their working and ability to create new wealth and wellbeing The book also describes how to increase cities social and economic resilience during crisis time and addressing their almost fatal weaknesses as it became all too obvious during the recent COVID 19 crisis Also the book presents a framework for a critical discussion of the concept of smart city suggesting its development into a cyber and meta one meaning not only digital systems can allow physical ones e g cities citizens households and companies to become smarter but also the vice versa is true as off line data and real life behaviours can support the optimization and development of virtual brains as a sum of big data and artificial intelligence apps all sitting over the cloud An analysis of the fundamental dynamics of this emerging info telligence economy and of the potential role of big digital players like Amazon Google and Facebook is then paving the way to discuss a few strategic forays on how traditional sectors such as financial services real estate TMT or health could also evolve leveraging Big Data and AI in a cyber physical integrated setting Finally a number of thought provoking use cases that could be designed around individuals

and to improve the success and the resilience of households and companies living and working in urban areas are discussed as an example of one of the most exciting future markets to come the one of global sustainable cities *Business Week*, 2008
