## **The Master Algorithm:**

*The Master Algorithm* Pedro Domingos, 2015-09-22 A spell binding quest for the one algorithm capable of deriving all knowledge from data including a cure for cancer Society is changing one learning algorithm at a time from search engines to online dating personalized medicine to predicting the stock market But learning algorithms are not just about Big Data these algorithms take raw data and make it useful by creating more algorithms This is something new under the sun a technology that builds itself In The Master Algorithm Pedro Domingos reveals how machine learning is remaking business politics science and war And he takes us on an awe inspiring quest to find The Master Algorithm a universal learner capable of deriving all knowledge from data

[by Pedro Domingos](#) QuickRead, Lea Schullery, How the Quest For the Ultimate Learning Machine Will Remake Our World According to Pedro Domingos one of the greatest mysteries of the universe is not how it begins or ends or what infinitesimal threads it's woven from it's what goes on in a small child's mind how a pound of gray jelly can grow into a seat of consciousness Even more astonishing is how little role parents play in teaching the brain to go through this transformation as it largely does it all on its own Today scientists computer engineers and more are working towards a machine that can do exactly what the human brain does learn With all the technology of today machines may one day even become smarter than the human brain Computers can learn from large sets of data that we may not even realize is getting collected This means that our future can be run by technology changing the way we live and interact with each other As you read you'll learn how machines will one day be like the human brain how there is no such thing as a perfect algorithm and how a Master Algorithm is on its way to being created Do you want more free book summaries like this Download our app for free at <https://www.quickread.com> App and get access to hundreds of free book and audiobook summaries **DISCLAIMER** This book summary is meant as a preview and not a replacement for the original work If you like this summary please consider purchasing the original book to get the full experience as the original author intended it to be If you are the original author of any book on QuickRead and want us to remove it please contact us at [hello.quickread.com](mailto:hello.quickread.com)

[The Master Algorithm](#) Pedro Domingos, 2015-09-22 Recommended by Bill Gates A thought provoking and wide ranging exploration of machine learning and the race to build computer intelligences as flexible as our own In the world's top research labs and universities the race is on to invent the ultimate learning algorithm one capable of discovering any

knowledge from data and doing anything we want before we even ask In The Master Algorithm Pedro Domingos lifts the veil to give us a peek inside the learning machines that power Google Amazon and your smartphone He assembles a blueprint for the future universal learner the Master Algorithm and discusses what it will mean for business science and society If data ism is today s philosophy this book is its bible *Algorithmic Learning Theory* Michael M.
