Thyroid hormone helps the body repair and maintain itself. As a result, with thyroid hormone, the body can gain weight and lose weight among many other things. However, 1-2% of the world's population is likely to have thyroid dysfunction and alone without treatment. However, a combination of the right nutrients and diet can help restore thyroid function and minimize your symptoms. The thyroid gland is a small butterfly-shaped gland that is the base of your neck. It makes thyroid hormone that affects virtually every body. When the thyroid gland receives a signal called thyroid stimulating hormone (TSH) from the thyroid hormone into the
