Tips Trips Agenda Agenda 1998:

Environmental Principles And Ethics (With Field Trip Guide) Ming H Wong, Frank W K Lee, Martin K F Fung, 2006-08-31 This book with the accompanying field trip guide aims to foster environmental literacy of non science students and to train them to look at environment related issues from a critical perspective. With these books students will obtain knowledge on fundamental environmental ethics and the principles involved. They will be in a position to apply these ethical principles in debates on local and global environment related issues. The issues covered in the book include natural science resources management, food safety, public health, sustainable development, ecotourism, nature conservation and ecological footprint as well as other current environment related issues in Hong Kong and South China. The field trip guide aims to make use of the natural environment and other related premises as outdoor classrooms to illustrate the importance of conservation and environmental principles. Both books could be used as reference materials by academic institutions, non profit organizations and government departments. They include practical educational materials on the life sciences and will help enhance readers knowledge of the environment.

The Cumulative Book Index, 1999 **The Tour Guide** Jonathan R. Wynn, 2011-07-05 Everyone

wants to visit New York at least once The Big Apple is a global tourist destination with a dizzying array of attractions throughout the five boroughs The only problem is figuring out where to start and that's where the city's tour guides come in. These guides are a vital part of New York's raucous sidewalk culture and as *The Tour Guide* reveals the tours they offer are as fascinatingly diverse and eccentric as the city itself. Visitors can take tours that cover Manhattan before the arrival of European settlers, the nineteenth century Irish gangs of Five Points, the culinary traditions of Queens, the culture of Harlem, or even the surveillance cameras of Chelsea; in short, there are tours to satisfy anyone's curiosity about the city's past or present. And the guides are as intriguing as the subjects we learn as Jonathan R. Wynn explores the lives of the people behind the tours, introducing us to office workers looking for a diversion from their desk jobs, unemployed actors honing their vocal skills, and struggling retirees searching for a second calling. Matching years of research with his own experiences as a guide, Wynn also lays bare the grueling process of acquiring an official license and offers a how-to guide to designing and leading a tour. Touching on the long history of tour giving across the globe as well as the ups and downs of New York's tour guide industry in the wake of 9/11, *The Tour Guide* is as informative and insightful as the chatty, charming, and colorful characters at its heart.

Los Angeles, '98 Fodor's, Fodor's Travel Publications, Inc. Staff, 1997 Translated here for the first time into any language, *Mountain Doctrine Ocean of Definitive Meaning Final Unique Quintessential Instructions* is a seminal fourteenth century Tibetan text on the nature of reality. The author, Dol bo ba Shay rap gyel tsen, was one of the most influential figures of that dynamic period of doctrinal formulation, and his text is a sustained argument about the buddha nature, also called the matrix of one gone. Thus, Dol bo ba recognizes two important types of emptiness: self emptiness and other emptiness, and shows how other emptiness is the actual ultimate truth. He justifies this controversial formulation by arguing that it was the favored system of all the early outstanding figures of the great vehicle, and by showing how important these doctrines were in India. The translator's introduction includes a short biography of Dol bo ba and an exposition of nine focal topics in his religious philosophy.
