Thunder Rides A Black Horse:

Thunder Rides a Black Horse Claire R. Farrer, 2010-09-02 Thunder's focus on the ways in which old myths and legends inform actions and beliefs on a contemporary Indian reservation in the American Southwest has established it as an ideal supplement for introductory classes in Native American studies, anthropology, crosscultural religion, folklore, and discourse analysis. As one reviewer states, Knowledge and understanding about human cultural variation and possibilities just flows. The current edition includes valuable updates of reservation life and the author's fictive family members at Mescalero. The compelling four-day and four-night Mescalero Apache girls' puberty ceremonial remains the backdrop of Farrer's interpretive discussion of time and the mythic present. The oral traditions and instructions given to her by the late Bernard Second, her longtime Apache teacher, provide insight into the importance of narrative not just in ceremonials but also in daily life. Farrer neither romanticizes nor patronizes the Apachean people who are presented as people with foibles as well as possessing much worthy of admiration. The Third Edition incorporates a fully developed concluding chapter, "Returning," and furnishes thoughtful end-of-chapter questions to prompt readers to explore their own reactions to the text.

Thunder Rides a Black Horse Claire R. Farrer, 2011 **Thunder Rides a Black Horse** Claire R. Farrer, 1996 Readers gain insight into the importance of narrative not just in ceremony but especially in everyday living on a contemporary Indian reservation of the Mescalero Apaches. Second edition includes a study guide for students. **Ways of Knowing** Jean-Guy Goulet, 1998-01-01 This innovative study reveals the creative world of a Native community. Once seminomadic hunters and gatherers who traveled by horse, wagon, canoe, and dog sled, the Dene Tha of northern Canada today live in government-built homes in the settlement of Chateh. Their lives are a distinct blend of old and new in which traditional forms of social control, healing, and praying entwine with services supplied by the Royal Canadian Mounted Police, a nursing station, and a Roman Catholic church. Many older cultural beliefs and practices remain; ghosts linger, reincarnating and sometimes causing deaths past and future are interpreted through the Prophet Dance; animal helpers become lifelong companions and sources of power; and personal visions and experiences are considered the roots of true knowledge. Why and how are such striking beliefs and practices still vital to the Dene Tha? Drawing on extensive fieldwork at Chateh, anthropologist Jean-Guy Goulet delineates the interconnections between the strands of meaning and experience with which the Dene Tha constitute and creatively engage their world. Goulet's insights into the Dene Tha's ways of knowing were gained through directly experiencing their lifeway rather than through formal instruction. This experiential perspective makes his study especially illuminating, providing an intimate glimpse of a remarkable and enduring Native community. *Black Cat Weekly #120* Janice Law, Eve Fisher, Joseph S. Theory of Women in Religions Catherine Wessinger,2020-12-01 An introduction to the study of women in diverse religious cultures While women have made gains in equality over the past two centuries equality for women in many religious traditions remains contested throughout the world In the Roman Catholic Church and the Church of Jesus Christ of Latter day Saints women are not ordained as priests In areas of Pakistan and Afghanistan under Taliban occupation girls and women students and their teachers risk their lives to go to school And in Sri Lanka fully ordained Buddhist nuns are denied the government identity cards that recognize them as citizens Is it possible to create families societies and religions in which women and men are equal And if so what are the factors that promote equality Theory of Women in Religions offers an economic model to shed light on the forces that have impacted the respective statuses of women and men from the earliest developmental stages of society through the present day Catherine Wessinger integrates data and theories from anthropology archaeology sociology history gender studies and psychology into a concise history of religions introduction to the complex relationships between gender and religion She argues that socio economic factors that support specific gender roles in conjunction with religious norms and ideals have created a gendered division of labor that both directly and indirectly reinforces gender inequality Yet she also highlights how as the socio economic situation is changing religion is being utilized to support the transition toward women s equality noting the ways in which many religious representations of gender change over time
