*Time Was Away* Julia Edwards, 2015-12-08 Life doesn't give us many second chances One autumn evening almost fourteen years after she vanished from his life Daniel catches a glimpse of his childhood sweetheart Having seen her he finds he cannot forget her again When Daniel Matlock's proposal to his girlfriend is rejected his world is turned upside down Hoping to make a fresh start he leaves London and returns to the place where he spent his summer holidays as a boy in the heart of the New Forest Too late he realises that the success of his new life depends on finding Hetty his childhood friend and first love But nobody seems to remember her Only when he meets Matthias Werner a former officer in the Luftwaffe does he begin to piece together what happened to her But his search for her has unexpected consequences and brings him into conflict with someone who will stop at nothing to keep the truth from coming out *The Shimmer on the Glass* Julia Edwards, 2018-11-12 When Joe Hopkins washes up from a shipwreck in Victorian England things aren't quite as he imagined But when he has the chance to try out the latest technology photography he jumps at it Will the camera prove once and for all that he has visited the past *The Shimmer on the Glass* is the sixth book in The Scar Gatherer series *The Narrow Gate* Charles M. Lovell, 2023-03-27 The impulse in much nineteenth century American painting and culture was to describe nature as a wilderness on which the young nation might freely inscribe its future the United States as a virgin land that is unploughed unfenced and unpainted Insofar as it exhibited evidence of a past its traces pointed to a geologic or cosmic past not a human one The work of the New England artist Fitz H Lane however was decidedly different In this important study Margaretta Markle Lovell singles out the more modestly scaled explicitly inhabited landscapes of Fitz H Lane and investigates the patrons who supported his career with an eye to understanding how New Englanders thought about their land their economy their history and their links with widely disparate global communities Lane's works depict nature as productive and allied in partnership with humans to create a sustainable balanced political economy What emerges from this close look at Lane's New England is a picture not of a virgin wilderness but of a land deeply resonant with its former uses and a human history that incorporates rather than excludes Native Americans as shapers of land and as agents in that history Calling attention to unexplored dimensions of nineteenth century painting *Painting the Inhabited Landscape* is a major intervention in the scholarship on American art of the period
