What is Effective Google Maps? Are we Assessing Google Maps and Risk? Meeting the challenge are missed Google Maps opportunities costing us money. What is our formula for success in Google Maps? How do we accomplish our long-range Google Maps goals? Defining, designing, creating, and implementing a process to solve a challenge or meet an objective is the most valuable role. In EVERY group, company, organization, and department. Unless you are talking about a one-time single-use project, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, "What are we really trying to accomplish here?" And is there a different way to look at it? This Self-Assessment empowers people to do just that: whether their title is entrepreneur, manager, consultant, Vice President, CxO, etc., they are the people who rule the future. They are the person who asks the right questions to make Google Maps investments work better. This Google Maps All-Inclusive Self-Assessment enables you to be that person.
