foreword by Google's Director of Research Peter Norvig. Each of these data scientists shares how he or she tailors the torrent taming techniques of big data, data visualization, search, and statistics to specific jobs by dint of ingenuity, imagination, patience, and passion. *Data Scientists at Work* parts the curtain on the interviewees' earliest data projects, how they became data scientists, their discoveries and surprises in working with data, their thoughts on the past, present, and future of the profession, their experiences of team collaboration within their organizations, and the insights they have gained as they get their hands dirty refining mountains of raw data into objects of commercial, scientific, and educational value for their organizations and clients.

The Ultimate Guide To Doing A PhD Merle Van Den Akker, 2023-03-10

Have you ever considered doing a PhD but have no idea where to start? Or are you doing a PhD and feel like you're losing the plot? Deciding to do a PhD is going to be one of the most impactful choices you'll ever make. It's a multi-year commitment that can really shape your career and your life. Yet as important as the PhD is, there's not much collated information about the process as a whole; this is where this book comes in. It explores every aspect of doing a PhD, from application to graduation and the whole mess in between. There are chapters on the motivation to do a PhD, the application process itself, questions around workload, time management, mental health, peer pressure, supervisor miscommunications, teaching, networking, conference attendance, all the way up to publishing your thesis and preparing for the next steps. And no, the next steps don't necessarily mean continuing to work in academia. This book addresses both career pathways, whether leaving or staying in academia equally. This book aims to take a PhD student or prospective student by the hand and outline the entire PhD process, answering every question you might possibly have along the way.
