**Scrum Master and Product Owner Certification Practice Exam Preparation** Dan Tousignant, 2021-01-15 I first took the PSM I exam back in 2011 after taking the PSM course from Ken Schwaber I had originally met Ken on a Scrum project back in 2000 and had been managing projects using Agile techniques and Scrum since that time I took the class and immediately took the exam without studying or reviewing the Scrum Guide I figured I had been practicing Agile for so long I didn't need to study Well I learned my lesson Needless to say I didn't pass I got an 82% Good but not good enough A couple years later I decided to take it again That time I created a personal study guide with questions and answers that I researched and that is how the first iteration of this practice exam was born You can still find those original 80 questions as part of my PMI ACP Preparation Study Guide on Amazon The version you are reading now has gone through 7 major revisions of both the PSM 1 and PSPO 1 practice exams as well as countless minor revisions Each Scrum Guide release obviously calls for a new version and every now and then I scour the blogs and Scrum.org community platform for insight into questions and possible answers I have also taken the exam myself a number of times just to confirm my that my practice exam content and my training content is still aligned with the current exam questions I am happy to say I have not gotten less than a 94% score since that first time There are always 2 or 3 questions that I either miss accidentally or I probably disagree with As you know there is a some interpretation needed and even contradictions in the Scrum Guide and recommended reading but all in all the important parts of Scrum have remained consistent for 20 years
