Dean, Lucinda Platt, 2016-01-21 Social advantage and disadvantage are potent catch all terms They have no established definition but considered in relation to one another they can embrace a wide variety of more specific concepts that address the ways in which human society causes exacerbates or fails to prevent social divisions or injustices This book captures the sense in which any conceptualisation of disadvantage is concerned with the consequences of processes by which relative advantage has been selectively conferred or attained It considers how inequalities and social divisions are created as much by the concentration of advantage among the best off as by the systematic disadvantage of the worst off The book critically discusses from a global and a UK perspective a spectrum of conceptual frameworks and ideas relating to poverty social exclusion capability deprivation rights violations social immobility and human or social capital deficiency It addresses advantage and disadvantage from a life course perspective through discussions of family and childhood education work old age and the dynamics of income and wealth It considers cross cutting divides that are implicated in the social construction and maintenance of advantage and disadvantage including divisions premised on gender race ethnicity migration and religion neighbourhood and the experience of crime **Housing Careers, Intergenerational Support and Family**

Relations Christian Lennartz, Richard Ronald, 2020-06-09 In this comprehensive volume authors from across the social sciences explore how housing wealth transfers have impacted the integration of families society and the economy with a focus on the re negotiation of the generational contract While housing has always been central to the realization and reproduction of families more recently the mutual embedding of home and family has become more obvious as realignments in housing markets employment and welfare states have worked together to undermine housing access for new households enhancing intergenerational interdependencies More families have thus become involved in smoothening the routes of younger adult members into and up the housing ladder While intergenerational support appears to have become much more widespread it remains highly differentiated across countries cities and regions as well as uneven between social and income classes This book addresses the increasing role that family support and intergenerational transfers in particular are playing in sustaining the formation of new households and the transition of young adults towards social and economic autonomy The authors draw on diverse international cases and a variety of methodologies in order to advance our understanding of housing as a key driver of contemporary social relations and inequalities Chapters 1 4 6 7 8 and 9 of this book are freely available as downloadable Open Access PDFs at <https://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Chapters 1 6 8 and 9 and a Creative Commons Attribution CC BY 4.0 license Chapters
