Weather Writing Activities For Kindergarten:

Teaching Literacy in Kindergarten Lea M. McGee, Lesley Mandel Morrow, 2005-05-05 Kindergarten is a time for playful and enriching learning activities that support children's literacy emergence while enhancing their social and cognitive development. The routines of a busy engaged productive kindergarten classroom are vividly brought to life in this information-packed book. Demonstrated are whole class and small group strategies for helping children acquire concepts about print and the alphabet, build phonological and phonemic awareness, learn to read sight words, develop their listening comprehension and writing abilities, and much more. Teaching with the Common Core Standards for English Language Arts, PreK-2

Lesley Mandel Morrow, Timothy Shanahan, Karen K. Wixson, 2012-11-29 Nearly every state has independently adopted the Common Core State Standards (CCSS), making this practical guide an indispensable resource for PreK-2 teachers and teachers in training. Leading authorities explain each of the English language arts (ELA) standards and vividly show how to implement them. The book is filled with grade-specific classroom vignettes, instructional strategies, and activities, sample lesson plans, and discussion questions. Chapters cover the major ELA strands: reading literature, informational texts, and foundational skills; writing; speaking and listening; and language. Issues of assessment and technology integration are also explored. An appendix includes thematic units for each grade level demonstrating ways to embed CCSS ELA standards into content area instruction. See also *Teaching with the Common Core Standards for English Language Arts, Grades 3-5*.

Nonfiction Writing Strategies Using Content-Area Mentor Texts Marcia S. Freeman, 2014 How can you enhance the quality and effectiveness of instruction in both the content areas and in writing? By integrating content in both social studies and science with the strategies of writing that are so important for students to master as they craft nonfiction. This book shows teachers how to use mentor texts in an integrative approach for teaching both content and informational writing. As you explore the pages of this book, you'll find strategies for teaching writing craft fundamentals with step-by-step instructions that make writing instruction come alive in content area classes. Models make the instructional strategies clear. The book also includes a variety of expository techniques and advice on preparing writers for success on performance-based tests.

Reading Their Way Dorothy J. Donat, 2003-10-01 Increasing reading achievement is a universal goal of educators. This book fulfills the goal as it explains a balanced literacy program for kindergarten through third grades that incorporates research-based components utilizing the best of the phonics and whole language approaches. Donat presents reading instruction strategies, scheduling, grouping options, assessments, evaluations, recommended materials, resources, and details of sound and spelling patterns at each grade level. Written in a style that ensures quick, easy reading, this book will help educators design time schedules that are most effective for learning while allowing for creativity. Teachers will find an

abundance of ideas for immediate implementation in their classrooms and school administrators will enjoy the guidance it gives in developing the quality literacy programs they desire for their schools Also a great resource for use in early reading development courses at the university level Writing Ideas Ready to Use!
