*Weiwei-isms* Ai Weiwei, 2012-12-01 The quotable Ai Weiwei This collection of quotes demonstrates the elegant simplicity of Ai Weiwei's thoughts on key aspects of his art politics and life A master at communicating powerful ideas in astonishingly few words Ai Weiwei is known for his innovative use of social media to disseminate his views The short quotations presented here have been carefully selected from articles tweets and interviews given by this acclaimed Chinese artist and activist The book is organized into six categories freedom of expression art and activism government power and moral choices the digital world history the historical moment and the future and personal reflections Together these quotes span some of the most revealing moments of Ai Weiwei's eventful career from his risky investigation into student deaths in the 2008 Sichuan earthquake to his arbitrary arrest in 2011 providing a window into the mind of one of the world's most electrifying and courageous contemporary artists Select Quotes from the Book On Freedom of Expression Say what you need to say plainly and then take responsibility for it A small act is worth a million thoughts Liberty is about our rights to question everything On Art and Activism Everything is art Everything is politics The art always wins Anything can happen to me but the art will stay Life is art Art is life I never separate it I don't feel that much anger I equally have a lot of joy On Government Power and Making Moral Choice Once you've tasted freedom it stays in your heart and no one can take it Then you can be more powerful than a whole country I feel powerless all the time but I regain my energy by making a very small difference that won't cost me much Tips on surviving the regime Respect yourself and speak for others Do one small thing every day to prove the existence of justice On the Digital World Only with the Internet can a peasant I have never met hear my voice and I can learn what's on his mind A fairy tale has come true The Internet is uncontrollable And if the Internet is uncontrollable freedom will win It's as simple as that The Internet is the best thing that could have happened to China On History the Historical Moment and the Future If a nation cannot face its past it has no future We need to get out of the old language The world is a sphere there is no East or West Personal Reflection I've never planned any part of my career except being an artist And I was pushed into that corner because I thought being an artist was the only way to have a little freedom Anyone fighting for freedom does not want to totally lose their freedom Expressing oneself is like a drug I'm so addicted to it **Ai Weiwei**

**(Inter)Facing Death** Sam Han, 2019-10-16 In modern times death is understood to have undergone a transformation not unlike religion Whereas in the past it was out in the open it now resides mostly in specialized spaces of sequestration funeral homes hospitals and other medical facilities A mainstay in so called traditional societies in the form of ritual practices death was usually messy but meaningful with the questions of what happens to the dead or where they go lying at the heart of traditional culture and religion In modernity however we are said to have effectively sanitized it embalmed it and packaged it

but it seems that death is back In the current era marked by economic political and social uncertainty we see it on television on the Internet we see it almost everywhere Inter Facing Death analyzes the nexus of death and digital culture in the contemporary moment in the context of recent developments in social cultural and political theory It argues that death today can be thought of as interfaced that is mediated and expressed in various aspects of contemporary life rather than put to the side or overcome as many narratives of modernity have suggested Employing concepts from anthropology sociology media studies and communications Inter Facing Death examines diverse phenomena where death and digital culture meet including art online suicide pacts the mourning of celebrity deaths terrorist beheadings and selfies Providing new lines of thinking about one of the oldest questions facing the human and social sciences this book will appeal to scholars and students of social and political theory anthropology sociology and cultural and media studies with interests in death

*Cultures, Citizenship and Human Rights* Rosemarie Buikema, Antoine Buyse, Antonius C. G. M. Robben, 2019-11-19 In *Cultures Citizenship and Human Rights* the combined analytical efforts of the fields of human rights law conflict studies anthropology history media studies gender studies and critical race and postcolonial studies raise a comprehensive understanding of the discursive and visual mediation of migration and manifestations of belonging and citizenship More insight into the convergence but also the tensions between the cultural and the legal foundations of citizenship has proven to be vital to the understanding of societies past and present especially to assess processes of inclusion and exclusion Citizenship is more than a collection of rights and privileges held by the individual members of a state but involves cultural and historical interpretations legal contestation and regulation as well as an active engagement with national regional and local state and other institutions about the boundaries of those implicitly gendered and raced rights and privileges Highlighting and assessing the transformations of what citizenship entails today is crucially important to the future of Europe which both as an idea and as a practical project faces challenges that range from the crisis of legitimacy to the problems posed by mass migration Many of the issues addressed in this book however also play out in other parts of the world as several of the chapters reflect This book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) They have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
