Welcome Shirley Memoir Atomic Town:

Welcome to Shirley Kelly McMasters, 2008-01-11 Shirley seemed to be doomed from the beginning Founded by a Vaudevillian huckster who touted it as a seaside haven despite the sand bar that blocks access to the shore the town has been plagued by one disaster after another a UFO a childhood cancer cluster and a mysterious federal nuclear laboratory in nearby Brookhaven that leaked toxic nuclear and chemical waste into the aquifer from which the residents unknowingly drew their well water This is Kelly McMasters account of growing up in a cursed town and loving it anyway and of a girl s awakening to tragedy and to a sense of mission Told in a deliciously engaging voice *Welcome to Shirley* balances the bitter with the sweet the funny with the infuriating in an unforgettable story of working class Long Island *Histories of the Dustheap* Stephanie Foote, Elizabeth Mazzolini, 2012-10-05 An examination of how garbage reveals the relationships between the global and the local the economic and the ecological and the historical and the contemporary Garbage considered both materially and culturally elicits mixed responses Our responsibility toward the objects we love and then discard is entangled with our responsibility toward the systems that make those objects *Histories of the Dustheap* uses garbage waste and refuse to investigate the relationships between various systems the local and the global the economic and the ecological the historical and the contemporary and shows how this most democratic reality produces identities social relations and policies The contributors first consider garbage in subjective terms examining toxic autobiography by residents of Love Canal the intersection of public health and women s rights and enviroblogging They explore the importance of place with studies of post Katrina soil contamination in New Orleans e waste disposal in Bloomington Indiana and garbage on Mount Everest And finally they look at cultural contradictions as objects hover between waste and desirability examining Milwaukee s efforts to sell its sludge as fertilizer the plastics industry s attempt to wrap plastic bottles and bags in the mantle of freedom of choice and the idea of obsolescence in the animated film *The Brave Little Toaster* *Histories of the Dustheap* offers a range of perspectives on a variety of incarnations of garbage inviting the reader to consider garbage in a way that goes beyond the common buy green discourse that empowers individuals while limiting environmental activism to consumerist practices

Lucky Girl Mei-Ling Hopgood, 2010-06-15 In a true story of family ties journalist Mei Ling Hopgood one of the first wave of Asian adoptees to arrive in America comes face to face with her past when her Chinese birth family suddenly requests a reunion after more than two decades In 1974 a baby girl from Taiwan arrived in America the newly adopted child of a loving couple in Michigan Mei Ling Hopgood had an all American upbringing never really identifying with her Asian roots or harboring a desire to uncover her ancestry She believed that she was lucky to have escaped a life that was surely one of poverty and misery to grow up comfortable with her doting parents and brothers Then when she s in her twenties her birth family comes calling Not the rural peasants she expected they are a boisterous loving bossy complicated middle class family who hound her daily by phone fax and letter in a language she doesn t understand until she returns to Taiwan to meet them

As her sisters and parents pull her into their lives claiming her as one of their own the devastating secrets that still haunt this family begin to emerge Spanning cultures and continents Lucky Girl brings home a tale of joy and regret hilarity deep sadness and great discovery as the author untangles the unlikely strands that formed her destiny *What My Father and I Don't Talk About* Michele Filgate, 2025-05-06 A follow up to *What My Mother and I Don't Talk About* this collection of essays from 16 notable writers breaks the silence on the complex and sometimes contentious relationships we have with our fathers A viral sensation online this is an essential collection that dives into the personal and poignant topics we often struggle to discuss with those who are meant to know and love us best

Cold War Long Island Christopher Verga, Karl Grossman, 2021 By the close of World War II Long Island had transformed from a rural corridor to a suburban behemoth The region became a nationally recognized manufacturing and innovation hub for the military and possessed one of the fastest growing middle class populations in the country But behind the manicured lawns and cookie cutter cape homes locals were adapting to new Cold War conflicts and facing anxieties of a potential nuclear fallout Secret nuclear missile sites and classified government laboratories were established on the outskirts of Suffolk County often among unaware residents Soviet spy rings traversed across the island seeking to steal industry secrets and monitor military installations Author Christopher Verga and veteran journalist Karl Grossman bring to life the often overlooked history of the Cold War era in Nassau and Suffolk Counties

Still the Same Hawk John Waldman, 2012-12-17 A groundbreaking new book *Still the Same Hawk* Reflections on Nature and New York brings into conversation diverse and intriguing perspectives on the relationship between nature and America's most prominent city The volume's title derives from a telling observation in Robert Sullivan's contribution that considers how a hawk in the city is perceived so much differently from a hawk in the countryside Yet it's still the same hawk How can a hawk nesting above Fifth Avenue become a citywide phenomenon Or a sudden butterfly migration at Coney Island energize the community Why does the presence of a community garden or an empty lot ripple so differently through the surrounding neighborhood Is the city an oasis or a desert for biodiversity Why does nature even matter to New Yorkers who choose to live in the concrete jungle *Still the Same Hawk* examines these questions with a rich mix of creative nonfiction that ranges from analytical to anecdotal and humorous John Waldman's sharp well-crafted introduction presenting dualism as the defining quality of urban nature is followed by compelling contributions from Besty McCully Christopher Meier Tony Hiss Kelly McMasters Dara Ross William Kornblum Phillip Lopate David Rosane Robert Sullivan Anne Matthews Devin Zuber and Frederick Buell Together these pieces capture a wide range of viewpoints including the myriad and shifting ways New Yorkers experience and consider the outdoors the historical role of nature in shaping New York's development what natural attributes contribute to New York's regional identity the many environmental tradeoffs made by urbanization and even nature's dark side where urban legends flourish *Still the Same Hawk* intermingles elements of natural history urban ecology and environmental politics providing fresh insights into nature and the urban environment
