filtrar los archivos confidenciales que lo probaban salir del anonimato. Se trata de Frances Haugen, la joven extrabajadora de Facebook, acusada a la compañía de Mark Zuckerberg de anteponer sus beneficios económicos al bienestar y la seguridad de sus usuarios. Haugen dejó la empresa en mayo de 2021, pero no sin antes haber recopilado decenas de miles de documentos internos que fueron bautizados como los Papeles de Facebook. En su testimonio ante el Senado de los Estados Unidos, la informtica expuso cómo la plataforma hoy llamada Meta ignora los informes e investigaciones que alertaban del impacto negativo de su tecnología en la sociedad. Haugen, que trabajó en el departamento encargado de vigilar la desinformación y los discursos de odio en la red social, explica con detalle a través de estas páginas la manera en la que el gigante tecnológico contribuye a los problemas de salud mental en los adolescentes, incentiva la difusión de bulos y permite la existencia de negocios ilegales en su web. Este libro arroja luz sobre uno de los grandes temas de nuestro tiempo: el mecanismo de los algoritmos de las grandes tecnológicas que al recompensar los comportamientos extremistas y amplificar las incitaciones a la violencia fomentan la polarización social y debilitan nuestras democracias. La verdad sobre Facebook es un libro controvertido y revelador que aporta una visión novedosa sobre las implicaciones éticas de las compañías digitales en una sociedad gobernada por la tiranía del clic.

The Hidden Psychology of Social Networks: How Brands Create Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15. From the former Head of Brand Strategy at Reddit comes a proven and thought-provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and in the end deliver more effective marketing that provides value.
