### *Abortion in the Age of Unreason*

Warren M. Hern,2024-09-30 This vivid account by a nationally prominent doctor reports the daily challenges of offering and receiving abortion services in a volatile political and social atmosphere In stories from the front lines from

protecting patients and staff from protesters attacks to the dangers to women of restricted access to abortion services and the pertinent findings of his remote research in Latin America Hern's book is strikingly detailed just as it exposes the needs of women and the U.S. national interest Dr. Hern an abortion specialist researcher scholar and highly visible public advocate shows how abortion saves women's lives given the many risks that arise during pregnancy remarkably more than most people realize He points to political and national solutions to reverse a reawakened crisis that now threatens democracy Throughout the book Dr. Hern shows how the current emergency was largely created by political actors who have exploited and distorted the abortion issue to increase and consolidate their power A vital component of women's health care the crisis over abortion is not new Yet the reversal of *Roe v. Wade* and the steady accumulation of power by America's right wing has put the issue at a level of urgency and national prominence not seen since the days before legalization Women's need for safe abortion services will continue as the struggle to secure their rights intensifies This book is about that struggle during what has evolved over the last 50 years to an Age of Unreason Scope and Myths of Roe V. Wade United States. Congress. House. Committee on the Judiciary. Subcommittee on the Constitution, 2006 The Abortion Market Katherine J.

Parkin, 2025-09-16 The abortion market was a powerful economic force in American life Before legalization lowered the cost one million women each year collectively paid upward of 750 million for abortions In this illuminating book Katherine Parkin reveals the strength of a massive consumer market that involved loans advertising and travel as well as the costs associated with the procedure itself Laying the foundation for the emergence of a public market that facilitated the buying and selling of abortions wealthy population control ideologues encouraged positive public discourse on abortion funded medical studies and waged legal battles White middle and upper class women sought out abortions and paid exorbitantly for them Male entrepreneurs emerged to capitalize on the booming market and profit from the incredible demand Advertising on billboards and in college newspapers men profited by providing the phone number getting kickbacks for delivering patients and arranging for women's travel to Mexico Puerto Rico England and Japan Students demanded abortion access and organized when it came at a steep cost especially to the poorest among them Abortion providers in Kansas California and Washington D.C. attracted out of state consumers with some women aided by their universities or by medical insurance Between 1970 and 1973 entrepreneurs providers and hundreds of thousands of women seeking to buy abortions headed to New York City heralded by some as the abortion capital of the world While we may have imagined that securing an abortion was best understood as a hidden woman only experience The Abortion Market reveals the extent to which businesses and businessmen openly selling abortion access shaped the experience of buying abortions for millions of women **International Development and Food Assistance Act of 1975, Hearings and Makeup of ..., 94-1, July 14, 15, 16, 17, 18, 21, 23, 25, 28 & 30, 1975** United States. involving academic researchers community scholars and the public Initially rejected by most colleges and universities queer history was sustained for many years by community based contributors and audiences Academic activism eventually made a place for queer history within higher education which in turn helped queer historians become more influential in politics law and society Through a collection of essays written over three decades by award winning historian Marc Stein Queer Public History charts the evolution of queer historical interventions in the academic sphere and explores the development of publicly oriented queer historical scholarship From the AIDS crisis of the 1980s and the rise of queer activism in the 1990s to debates about queer immigration same sex marriage and the politics of gay pride in the early twenty first century Stein introduces readers to key themes in queer public history A manifesto for renewed partnerships between academic and community based historians strengthened linkages between queer public history and LGBT scholarly activism and increased public support for historical research on gender and sexuality this anthology reconsiders and reimagines the past present and future of queer public history
