

Graduation Valedictorian Speech Format

Today is a turning point in each of our lives. We have spent the past years wandering the halls of this great school and now we are ready to go on.

We have learned, laughed, loved, gotten into trouble, and most of all matured together. But today doesn't just concern reminiscing about the past; it's also about looking forward into our future.

Life is a series of passageways, and we are leaving one and moving on to the next. When we reach that daunting place next year that has been our destination for three years now, we will start over.

We will meet new people, make new friends, and learn new things. We will grow older, more responsible, and independent. Then, the cycle begins again in college, and after that, we are left to traverse the unmapped expanse that is our future.

Hereafter our lives will hold many surprises for us, but I'm sure that we will approach challenges with the same boldness and equanimity with which we tackle problems currently. The unknown of our future may seem frightening now, looming over us like a dark thundercloud, but we might find that it is just a light, spring rain that brings the tidings of a rainbow.

As I look over the many faces I behold today, perceptions of individuals are washed away. I no longer see people as they were; I see them as they will be. So, rather than a young boy, failing all his classes, I see the next Einstein, making revolutionary discoveries. I know that this amphitheatre holds the next decade's great business leaders, doctors, politicians, scientists, and stars, and that all of these graduates will contribute to the fabric of the future in some way.

So when looking at the bright horizon that is my future, I am happy. For although my life will contain sadness and heartbreak, it will also hold joy, love, and success. And I know my classmates' will too. So don't look back, and regret, my friends, look forward, and smile.

Valedictorian Speech Guide Elementary:

A Reader's Book of Days: True Tales from the Lives and Works of Writers for Every Day of the Year Tom

Nissley, 2013-11-04 Book connoisseur Tom Nissley has combed literary history to capture the stories that make writers' lives perennially fascinating: their epiphanies, embarrassments, and achievements. Each handsome page in *A Reader's Book of Days* is devoted to a day of the year, featuring original accounts of events in the lives of great writers and fictional events that took place within beloved books. **Religion & Public Schools**, 2008 *The Tao of Parenting* Greta K. Nagel, 1998-11-01

Applying the ancient yet timeless 81 principles of Taoism to parenting, *The Tao of Parenting* features instructive anecdotes from four families to demonstrate how Taoist teachings help parents raise good, healthy children. The stories are just as diverse as the families who tell them: a blended family featuring children from separate marriages, a couple with different cultural and ethical backgrounds, a single parent of twin boys, and a couple with different parenting techniques learning to compromise. Some of the Taoist principles used by these families include: Do Not Think of Self Shows the rewards parents receive by making their children their number one priority; The material is fleeting, the spiritual is everlasting; Demonstrates the rewards of caring for those in need; Do Not Be Authoritarian Shows how to foster self-reliance and responsibility in children while supporting their efforts rather than controlling their every move; Follow the middle road: it is the heart of knowing; Offers the benefits of parents being neither too permissive nor too strict but rather adjusting the rules for each child and each circumstance. There are many more valuable lessons in this special book, which can be used by parents of all faiths to help guide their lives and those of their children. *Woke Is Not Enough* T. Elijah Hawkes, 2022-06-15 These are challenging times for leaders who believe schools must teach history honestly, be laboratories of democracy, and honor differences while finding common cause. This book, grounded in two decades of work in diverse school settings, provides guidance to help us remain steadfast in the work. Racial justice: Beyond proclamations, how can school leaders reallocate resources to support substantive anti-racist school reforms? Democratic practice: How can school leaders who have significant authority in a hierarchical system wield their power in support of democracy? Restorative justice: With time in short supply, how can schools truly embrace restorative practice, which calls for slowing down to repair and prevent harm? Student activism: How can school leaders uphold rules while also supporting students who disrupt in the name of justice? Counter extremism: White supremacist threats are a danger to our communities. How can school leaders carefully confront the extremism of these troubled times? Compelling stories drawn from contemporary school contexts help illuminate each of these questions in fine detail. Each chapter concludes with a list of concrete actions every school leader can take in pursuit of answers. Administrators, teacher leaders, and those who support school reform with justice in mind will find both practical guidance and inspiration. *Teaching about Teaching* Tom Russell, 2002-11 Considers teacher education as an important aspect of the teaching profession and demonstrates why it is so important for higher education institutions to value their teacher.

educators professional knowledge The book demonstrates how teaching about teaching knowledge pedagogy is vital to the development of quality in teacher education and how this knowledge needs to be articulated and communicated throughout the teaching profession both in schools and universities **What's Right for Kids** Julie Allington, 2003 **School Law Reporter**, 2003 *An Educator's Guide to Understanding the Personal Side of Students' Lives* William L.
